	18	Wed	End of Second Summer Session

EQUAL OPPORTUNITY STATEMENT

Mitchell Community College offers equal employment and admission opportunities to its existing personnel and applicants for employment without regard to race, color, religion, sex, age, handicap, or national origin. The "Open Door" philosophy extends equal educational programs and instructional opportunities to the college's service area.

MISSION STATEMENT

Mitchell Community College is a comprehensive, open-admissions community college dedicated to meeting the post-secondary education and training needs of the citizens of Iredell County and surrounding areas. The college provides an array of high quality programs at low cost in an historically rich environment. Mitchell is a student-centered institution where all persons are encouraged to develop their abilities in a community that respects diversity and is supportive of individual achievement. Concerned with the social, civic, cultural, and economic development of the community as a whole, instruction programs are focused on meeting the education and training needs of all persons over eighteen years of age and persons sixteen years of age and older with special needs. Mitchell Community College commits its resources to the following purposes: (1) to provide associate degree programs for the first two years of academic courses leading to baccalaureate and professional degrees; (2) to provide associate degree, diploma, and certificate programs to meet the pre-service and in-service manpower training needs for industry, business, government, and service occupations; (3) to serve the adult population with basic education and salable skills; (4) to enhance personal development through general and continuing education.

LOCATION

Mitchell Community College is located in Piedmont North Carolina, downtown Statesville, in the foothills of the Blue Ridge Mountains. Interstate Highways 40 and 77 intersect on the outskirts of the city. Statesville is situated approximately 50 miles north of Charlotte, and 50 miles southwest of Winston-Salem. The population of Statesville and Iredell County is approximately 92,000.

MEMBERSHIPS AND APPROVALS

Mitchell Community College is a member of:

American Association of Community and Junior Colleges
North Carolina Department of Community Colleges
Southern Association of Colleges and Schools
National Association of Student Financial Aid Administrators

Mitchell Community College is recognized and approved by: North Carolina Department of Public Instruction Division of Vocational Rehabilitation, Southern Association of Colleges and Schools, North Carolina State Board of Community Colleges

VETERANS

Persons enrolled at Mitchell Community College will be eligible to receive Veterans Administration benefits if they qualify.

ADMISSION

Mitchell Community College subscribes to the "Open Door" policy as set by the North Carolina Department of Community Colleges. It should be noted that a high school diploma or GED is required for entry into all post-secondary programs except for some vocational curricula.

Mitchell Community College is an equal educational opportunity institution; and in keeping with this policy, the college serves students without regard to race, color, sex, religion, creed, handicap, age or national origin.

ADMISSION REQUIREMENTS

1. High school graduate or GED equivalency diploma.
2. Minimum age of 18 without a high school diploma or its equivalent qualifies for some Vocational curricula or as a "Special Credit Student"* in College Transfer or Technical programs.
3. Minimum age of 16 with identified special needs and written permission from the superintendent of the school system the student would normally attend.

ADMISSION PROCESS

Completion of the following steps is generally required for all curriculum programs:

1. Completed application;
2. High School and college (if transfer student) transcripts; and
3. Placement tests (except Cosmetology students).

ADMISSION-TRANSFER

Transfer students may enter Mitchell Community College upon completing the process outlined above. Official transcripts of all previous college course-work must be submitted. Credit will be granted whenever possible.

ADMISSION-VISITORS

A student who has been accepted by or is enrolled at another institution may enroll at Mitchell Community College as a visiting student. Such students must complete an application and have the permission of the dean or other appropriate official at the parent institution. This official should also specify the courses to be taken at Mitchell. The student should enroll in only the specified courses and then only if the required prerequisite courses or their equivalents have been completed.

*"Special Credit Students" are those persons not enrolled in a degree or diploma program.

ADMISSION - CONTINUING EDUCATION

Students who are high school graduates or 18 years old or 16 years old with special permission are eligible to enter a Continuing Education Program. Further information is available in the Continuing Education section of this publication.

SPECIAL STUDENTS

A special student is defined as one who is enrolled in curriculum credit courses but who is not working toward a degree or diploma. Special students will be allowed to register for courses provided that prerequisite requirements are met.

For admission, special students need only to complete the application which is available in the Admissions Office. Special students, however, will be asked to submit proof of high school graduation and meet placement criteria if they desire to be reclassified as regular students. Special students will pay the same tuition and fees as regular students.

PLACEMENT TESTING

All students, except cosmetology students, who enter a curriculum program must take the college placement tests.

TRANSFER OF CREDITS

Educational work taken at a regionally accredited institution in which a grade of "D" or better was earned and a comparable course is offered at Mitchell Community College may be accepted in transfer if appropriate to the student's program of study, provided the student has an overall "C" average. If the overall average is less than 2.0, only grades of "C" or better will be accepted.

Work at institutions which are not regionally accredited is evaluated on the basis of the current issue of Report of Credits Given by Educational Institutions published by the AACRAO and similar publications. Credit toward technical and vocational programs may be accepted from other agencies at the discretion of the college.

Final acceptance or rejection of transfer credits lies with the college. A minimum of 30 quarter hours credit in the student's program of study must be earned at Mitchell to be eligible for graduation.

FOREIGN APPLICANTS

Proficiency in the English language and satisfactory academic records are important factors in the admission decision for all applicants from outside the United States. Foreign students must have graduated from a secondary school that is equivalent to secondary schools in the United States. Furthermore, the Test of English as a Foreign Language (TOEFL) and the College placement tests

are required of all foreign applicants. Students should contact a university in their native land for information about the Test of English as a Foreign Language. Foreign applicants should write to the Admissions Office of Mitchell Community College for additional information.

RESIDENCY REQUIREMENT

Under North Carolina law, a person must qualify as a resident for tuition lower than that for nonresidents. North Carolina statute 116-143.1 requires that "To qualify as a resident for tuition purposes, a person must have established legal residence (domicile) in North Carolina and maintained that legal residence for at least twelve (12) months immediately prior to his or her classification as a resident for tuition purposes."

Failure to provide accurate information for residency classification can result in classification as a nonresident and/or disciplinary action. A student who believes that he or she has been erroneously classified shall be permitted to appeal the classification to the campus appeals officer within one month of the initial residency determination.

Regulations concerning the classification of students by residence are set forth in "A Manual to Assist The Public Higher Education Institutions of North Carolina in the Matter of Student Residence Classification for Tuition Purposes." A copy of the manual is available in the Admissions Office for student inspection.

CHANGE OF PROGRAM

Students who change from one program to another within the institution will have credit hours and quality points transferred according to the requirements of the new program. All courses completed within the new program will be used to calculate the grade point average.

COLLEGE LEVEL EXAMINATION PROGRAM

Credit may be allowed for up to 30 quarter hours of college work based on appropriate scores on the CLEP General Examination where appropriate to the student's program of study.

THE COLLEGE BOARD ADVANCED PLACEMENT PROGRAM

Credit may be allowed for up to 30 quarter hours of college work based on exams as given through the College Board Advanced Placement Program. Scores on the exams must be three, four, or five. Credit is allowed only if appropriate to the student's program of study.

SERVICE EXPERIENCE

Veterans may receive credit for USAFI courses and for service school training where appropriate to the student's program and where a comparable course is offered by the college. USAFI courses are evaluated on the basis of the catalog of the USAFI. Service School Training is evaluated on the basis of A *Guide to the Evaluation of Educational Experiences in the Armed Services,* published by the American Council on Education. Credit, not to exceed three quarter hours, is allowed for physical education to veterans upon presentation of discharge or separation papers appropriate to the veteran's course of study. Final acceptance or rejection of the credit lies with the college.

DRUG AND ALCOHOL POLICY

It is the policy of this college that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance or alcohol, is prohibited while in the workplace, on college premises, or as part of any college sponsored activities. Any employee or student violating this policy will be subject to disciplinary action up to and including termination or expulsion and referral for prosecution.

The term "controlled substance" means any drug listed in 21 DFR Part 1308 and other federal regulations, as well as those listed in Article V, Chapter 90 of the North Carolina General Statutes. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to, heroin, marijuana, cocaine, PCP and crack. They also include "legal drugs" which are not prescribed by a licensed physician.

The term "alcoholic beverage" includes beer, wine, whiskey, and any other beverage listed in Chapter 188 of the General Statutes of North Carolina.

It is Mitchell Community College's intention to provide a safe educational environment for all students. In addition, the college intends to provide information about services available through the local Health Department, Office of Vocational Rehabilitation and other local agencies.

For additional information, you should review the Mitchell Community College Drug and Alcohol Policy provided in the *Student Handbook.* You should contact the Dean of Student Services if you have problems related to drugs and/or alcohol or have questions about available services.

SERIOUS COMMUNICABLE DISEASE POLICY FOR MITCHELL COMMUNITY COLLEGE

Mitchell Community College places a high priority on the need to prevent the spread of serious communicable diseases on its campuses. The college is committed to educating its staff, students and the community, about serious communicable diseases. Specifically, because there is currently no cure or vaccine for Acquired Immune Deficiency Syndrome (AIDS), education regarding methods by which this virus may be transmitted and how to prevent transmission is essential. By adopting this policy, it is the intention of the college to promote the health and regular school attendance of its students so that they may attain their maximum potential for learning.

STUDENTS WITH SERIOUS COMMUNICABLE DISEASES

In keeping with the open access policy of Mitchell Community College, students with serious communicable diseases may attend college whenever, through reasonable accommodation, the risk of transmission of the disease and/or the risk of further injury to the student or to other students and/or faculty is sufficiently remote in such setting so as to be outweighed by the detrimental effects resulting from the exclusion of the students from college. Placement decisions will be made by using this standard in conjunction with current, available public health department guidelines concerning the particular disease in question. Individual cases will not be prejudged; rather, decisions will be made by health care professionals based upon the facts of the particular case. The determination of whether a student with a serious communicable disease may attend college shall be made by the President in accordance with procedures implemented by the college. The President's decision shall be based upon expert medical advice and will include consultation with all interested parties.

The college shall respect the right to privacy of any student who has a serious communicable disease. The student's medical condition shall not be disclosed. If necessary, it is to be discussed only with the President or his designee and only to the extent necessary to minimize the health risks to the student and others on campus. The number of personnel aware of the student's condition will be kept to the minimum needed to assure proper care of the student and to detect situations in which the potential for transmission of the disease may increase. Persons deemed to have a "direct need to know" will be provided with the appropriate information; however, these persons shall not further disclose such information.

Faculty may offer students the opportunity to reveal medical conditions as a matter of promoting the students' own safety in the event of an unexpected medical crisis while the students are on campus.

CONTINUING EDUCATION

Mitchell Community College strives to provide academic and occupational programs consistent with the educational needs of Iredell and surrounding counties. The college provides opportunities for people to further meet their educational goals by offering programs which enable people to pursue vocational, cultural, and civic interests.

The college strives to serve the needs of the adult community by providing numerous programs of continuing education. Adult programs are held on a continuing basis and are developed according to the community's needs and interests. Courses include formal academic learning, cultural advancement, vocational and technical improvement, and personal enrichment.

Classes are generally held at the Continuing Education facility located at 701 West Front Street and at various other locations throughout Iredell County. Continuing Education classes are also frequently held at the Mooresville Center.

Continuing Education Units (CEU's) are awarded to all classes with the exception of Adult Basic Education, Adult High School and craft classes. A CEU is defined as "ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction." These units provide a means of recording and accounting for non-credit courses, programs and activities.

Attendance

Most classes are scheduled on a quarterly basis. However, special workshops and industrial courses are frequently offered. Schedules of classes are publicized through brochures, the local newspaper and radio stations. Classes usually meet one to three hours each night, Monday through Thursday, and regular attendance should be maintained. Courses offering certificates require at least 80 percent attendance.

Fees and Supplies

There is generally a registration fee of approximately $30.00 for avocational, occupational, academic and practical skills classes. Persons 65 years of age or older as well as prison inmates and those enrolled in courses for Adult Basic Education, Adult High School, volunteer fire departments, local law enforcement, and the Department of Corrections are exempt from the registration fee. When self-supporting classes are sponsored, charges are whatever is necessary to pay for the class. Books and limited supplies are available at the college bookstore. Their costs vary according to individual courses.

Continuing Education Programs

Outlined below are the programs presently offered through the Mitchell Community College Division of Continuing Education.

Adult Basic Education (ABE) - designed to assist adults in the fundamentals of English, math, reading, science and social studies. Upon completion of ABE, students may enroll in the Adult High School Diploma Program.

FEE: No charge.

Adult High School Diploma - recommended for persons who desire a structured academic program of high school completion. The required courses of study are English, math, reading, science and social studies. Each student takes a standardized test on each subject and when all five are satisfactorily completed, a diploma is awarded by Mooresville or Statesville City School systems. To qualify for this program, you must:

1. Be a legal North Carolina resident;
2. Be at least 18 years old or 16 years old with written permission from the Superintendent of Schools **and** a notarized permission letter from a parent or guardian.

FEE: No charge.

G.E.D. High School Equivalency Program - designed to test a person's knowledge in five areas: English, math, reading, natural science and social studies. Upon satisfactory completion of tests, which are administered one week during each month, the Equivalency Certificate is issued by the North Carolina State Board of Education. The **G.E.D.** is recognized as the equivalent of a high school diploma. To qualify for this program, you must:

1. Be a legal North Carolina resident;
2.. Be at least 18 years old **or** 16 years old with a special need and completion of a special form available from the G.E.D. Examiner of the Continuing Education office **and** permission from the Superintendent of Schools **and** notarized parental permission.

FEE: $7.50 initial testing fee.

Job Training Partnership Act (JTPA) - provides job training for economically disadvantaged adults. Programs for 1992-93 include Basic Skills/G.E.D. Preparation, Certified Nursing Assistant I, General Clerk/Data Entry and Individual Referral for Technical and/or Vocational curriculum programs except for Cosmetology. For additional information, please contact the JTPA office at 878-3233.

Learning Labs - provide adults with individually scheduled, planned and paced instruction in three concentrated areas outlined below:

1. High school completion - placement and referral, instruction in the Adult High School Diploma courses, and preparation for the G.E.D. tests.
2. Curriculum support - provides supplementary assistance to students enrolled in campus curriculum classes.
3. Special interest - includes courses for self-improvement, enrichment and credit with actual credit awarded by outside institutions.

Mitchell Community College has two Learning Labs - one located in Statesville at the Continuing Education facility and the other at the Mooresville Center.

Statesville Hours :	Monday - Thursday	8:00 am - 9:00 pm
	Friday	8:00 am - 5:00 pm
Mooresville Hours:	Monday - Friday	8:00 am - 5:00 pm

FEE: No charge.

Mooresville Center - located at 219 North Academy Street in Mooresville. The facilities include a Learning Lab, a modern computer lab, a computer-aided drafting lab, and classroom spaces for curriculum and continuing education classes.

This is also the site of the Mooresville Allied Health Center which is the coordination of resources of Mitchell Community College, Lake Norman Regional Medical Center and the Mooresville Graded School District to meet the health education, training and service needs of Iredell County.

Curriculum program courses offered at the Mooresville Center throughout the year include College Transfer, Accounting, Business Administration, Business Computer Programming and Criminal Justice.

Other classes offered at the center include English as a Second Language (ESL), International Acclimation, occupational extension courses, new and expanding industry training, and community service courses and seminars.

New and Expanding Industry Program - primarily concerned with the development and administration of programs designed for the purpose of training new employees of any new or expanding company which is creating a minimum of 12 new production jobs within the College's service area. The program, administered locally by Mitchell Community College, is funded through the Business and Industry Services Section of the State Department of Community Colleges.

EXPENSES

STUDENT CHARGES AND REFUNDS

Mitchell Community College operates on the quarter system. Students are required to pay all charges at the time of registration. Tuition charges are set by the State Board of Community Colleges and are subject to change without notice.

Tuition and fees for each quarter are payable on or before the date of registration. Any student who is unable to make payment at that time must make a special arrangement with the Financial Aid Office.

Written verification for third party billing must be received by the Business Office before a student will be allowed to register without making payment at the time of registration.

A student is not eligible for re-registration who has an outstanding balance due to the college.

No student will be allowed to graduate, receive a diploma or certificate, or a transcript of their records, nor will any information concerning their records be forwarded to any other institution or other person so long as the delinquent account is outstanding.

GENERAL GUIDELINES FOR STUDENT CHARGES AND REFUNDS

Tuition: Current tuition charges are $ 13.25 for in-state and $107.50 for out-of-state per quarter hour with a maximum charge of $185.50 and $1505.00 per quarter respectively.

Exceptions: Students who have paid tuition at one institution and are given permission to transfer to another institution shall be issued a letter verifying payment has been made for the quarter and the institution to which they are transferring will accept the letter in lieu of payment.

A student may enroll for the same quarter at two or more institutions within the North Carolina Community College System. The total amount of tuition paid may not exceed the maximum charge.
N.C. residents 65 or over are not required to pay tuition.

Refunds: Full tuition refunds are made if a student withdraws prior to the beginning of the first day of classes. Two-thirds of the tuition is refunded if a student withdraws within ten calendar days from the first day of classes for the quarter. No refunds are made after ten calendar days. Students must complete the withdrawal procedure to receive a refund.
Exception: During an accelerated term students must withdraw within the first five calendar days to receive a two-thirds refund.

Students receive full refunds for classes cancelled by the College; however, there will be no refunds for classes from which students withdraw.

If a student dies during the quarter, all tuition and fees for the quarter are refunded to the estate of the deceased.

Library Fines: A fee for lost books and over-due books is charged. If a lost book fee is charged and the book is later found and returned, the fee is refunded.

Graduation Fees: $30.00 ($10.00 for each additional degree).

Audit Fee: Regular tuition charges apply for classes taken for audit.

Student Fee: All students are charged 70 cents per credit hour up to twelve credit hours (full-time).
All expenditures from these funds are related directly to student activities.

Exceptions: Persons who are employed as law enforcement officers and students who take courses that are taught off campus are not charged a student activity fee.

Transcripts: No transcript is released without the written permission of the student. Twenty-four hours notice is required.

Books: Cost of books will vary from program to program; however, most students pay an estimated $405 for books for the academic year, with the first quarter charges being considerably more than the other two quarters.

Special Fees: Because of the nature of some programs, additional facility charges, supplies, materials, tools, etc., may be required for purchase by the student.

VETERAN/DEPENDENT/NATIONAL GUARD/RESERVE ASSISTANCE

Eligibility: Persons enrolled in an approved program will be eligible to receive benefits if they qualify.

Exclusions: Audited courses, telecourses, credits by exam, courses taken outside of the curriculum, repeated courses with a passing grade, or any other courses not counted toward graduation will not be used in calculating hours for payment purposes.

Attendance: Recipients are paid to attend class. A student who withdraws from class must notify the Asst. Financial Aid Officer immediately to avoid overpayment. A student should never stop coming to class without notifying the Registrar's Office and the Asst. Financial Aid Officer.

Standards of Progress: All VA recipients must meet the requirements for academic progress as set forth in the Catalog and the Student Handbook. Any recipient whose overall GPA in the current major is below school standards will be placed on academic probation. If at the end of the probationary quarter school standards are again not met, a second quarter of probation will be

allowed. If at the end of the second probationary quarter school standards have not been met, the student will be terminated for unsatisfactory progress with the Veterans Administration and be referred to a Mitchell Community College counselor to set up conditional status guidelines. Counseling notes will be provided to the Asst. Financial Aid Officer. When the student has met the conditions as set forth by the counselor, the Asst. Financial Aid Officer will be notified, and the recipient will be eligible to be certified with the Veterans Administration at the beginning of the next quarter.

Application Process: Students should apply for admission to Mitchell and contact high school, and colleges attended to send official transcripts to Mitchell Community College. Provide the Registrar's Office with service schools or tests which may be evaluated for credit. Contact the Asst. Financial Aid Officer for an application for benefits and additional information needed for certification.

SERVICEMEMBERS OPPORTUNITY COLLEGE

Having pledged to abide by the principles and criteria of Servicemembers Opportunity Colleges (SOC), Mitchell Community College has been designated as a Servicemembers Opportunity College.

U. S. ARMY RESERVE OFFICERS TRAINING PROGRAM

Mitchell Community College has a cooperative program administered by Davidson College. Detailed information on this program is available from the Department of Military Science, Davidson College.

FINANCIAL AID INFORMATION

The purpose of financial aid is to help students who would be unable to attend Mitchell without assistance. To be considered for aid an ACT Need Analysis must be completed.

Application Procedures: Obtain ACT Need Analysis and Mitchell Scholarship Application from high school counselors or the Financial Aid Office at Mitchell. Complete and mail the Need Analysis to ACT in Iowa. Incomplete forms will not be processed. Be sure to include the appropriate processing fee and the code for a report to be sent to Mitchell (3128). Students must bring the Student Aid Reports to Mitchell when they receive them. Completed scholarship applications should also be mailed to Mitchell. Completed applications will then be considered by the Financial Aid Awards Committee. The available funds are distributed among eligible students according to need. Students will be notified of financial aid awards. For more information contact the Financial Aid Office at Mitchell Community College.

Types of Aid Available: Pell Grant, Supplemental Educational Opportunity Grant (SEOG), North Carolina Student Incentive Grant (NCSIG), College Work Study (CWS), Stafford Loan, Scholarships, Scholarship/Loans, and Veteran's Educational Aid (See Veterans' Officer).

A student may receive several different awards. Grants are not repaid. Work Study awards must be earned as hourly wages for part-time work on campus. Loans must be repaid after the student's education is completed. The interest rate on Stafford Loans is 8% until the end of the fourth year of the repayment period and then 10% beginning with the fifth year of repayment for new borrowers who have no outstanding balance on Stafford, Supplemental, PLUS, or Consolidation Loan(s) made for enrollment period(s) beginning before July 1, 1988. Repayment begins 6 months after leaving school.

Students denied financial aid are entitled to an explanation as to the basis for denial. Appeals must be made in writing to the Financial Aid Appeals Committee and addressed to the Financial Aid Officer within 10 days of receiving notification of denial of aid. The Financial Aid Appeals Committee shall convene for the purpose of hearing the appeal and notify the student as to the committee's decision.

DISTRIBUTION : Recipients of Pell Grant, SEOG, and scholarships may charge their tuition, fees, books, and supplies against their financial aid eligibility for the quarter for which they are registering. If their financial aid is greater than the expenses charged, a check is issued to the student after midterm each quarter. The dates of the disbursements are sent to the student with his financial aid award letter.

Some agencies issue checks directly to the students. Checks to the recipients of the Iredell Memorial Hospital Scholarship/Loan Program and the Davis Community Hospital Scholarship/Loan Program are available on Registration Day each quarter. The checks issued for the North Carolina Student Incentive Grant, Nurse Scholars Program, and Nurse Education Scholarship/Loan Program are available on the first day of class each quarter. The Stafford Loan checks are available for the students no earlier than the first day of class each quarter; however, a first year undergraduate student borrower who has not previously received a Stafford Loan can not receive his first check any earlier than 30 days after the first day of the student's program of study.

Transfer Students: if a student transfers to Mitchell from another school, a financial aid transcript and duplicate Student Aid Reports (if applicable) must be submitted. A borrower from Stafford Loan Program should check with the lender to be sure the loan can continue at the new school.

Satisfactory Academic Progress: Financial aid recipients, in addition to maintaining the cumulative grade point average as specified in the College Catalog, must complete 8 credit hours per quarter if full-time, 6 credit hours if three-quarter time, and 4 credit hours per quarter if half-time. The maximum number of quarters allowed to complete the degree for financial aid purposes are as follows: College Transfer - 12 full-time, 16 three-quarter time, and 24 half-time; Technical - 13 full-time, 17 three-quarter time, and 25 half-time; Vocational - 9 full-time, 12 three-quarter time, and 18 half-time. If a recipient does not meet the grade point average and minimum hours completed per quarter, the student will be placed on academic probation the proceeding quarter. If at the end of the probationary period, the qualitative and quantitative aspect of satisfactory progress has not been met, the student will be notified of termina-

tion from financial aid. Reinstatement can be made by meeting the satisfactory progress guidelines or by the appeal process.

Student Life

Mitchell Community College is interested in helping all students develop to their fullest potential. With this goal in mind, the college strives to offer a comprehensive program in academics as well as social and cultural activities to build well-rounded persons.

STUDENT RESPONSIBILITY

Students at Mitchell Community College are expected to conduct themselves in accordance with Federal, State, and local statutes. Mitchell Community College will cooperate with the respective law enforcement agencies in their enforcement. The code of Student Conduct and Student Appeals procedure are detailed in the Student Handbook, which is distributed to each student enrolled in a curriculum program or course.

STUDENT RECORDS AND PRIVACY RIGHTS

Mitchell Community College must maintain accurate and confidential student records and must recognize the rights of students to have access to their educational and personal records in accordance with existing College policy and the Family Educational Rights and Privacy Act of 1974 (Buckley Amendment) and its revisions effective 1976.
"Educational Records" include files, documents, and other materials which contain information directly related to students. The term "educational records" does not include the following:

a. Records and documents of institutional personnel which are kept apart from educational records.

b. Records on the student which are made or maintained by a physician, psychiatrist, psychologist, counselor, or other recognized professionals or paraprofessionals acting in their official capacity.

c. Financial records on the parents of the student.

d. Records of instructional, supervisory and administrative personnel kept in their sole possession provided they are "not accessible or revealed to any other person except a substitute."

RELEASE OF STUDENT EDUCATIONAL RECORDS

The following "Directory Information" may be made available to the public by the College without the student's written permission unless the student notifies the Office of Student Services in writing by the third week of the quarter that such information concerning themselves is not to be made available.

a. Student's name, address, telephone number, and social security number.

b. Major field of study or program, club and sport activities.

c. Dates of attendance, degrees, diplomas, or awards received and the most recent previous educational institution.

d. Place of birth, weight, and height.

Faculty and administrative officers of the College who demonstrate a legitimate educational need will be permitted to look at the official student file for a particular student.

Requests for confidential information shall not be honored without proper written consent for the release of such records by the student. The written consent must specify the records or the specific data to be released and to whom it is to be released, and each request must be handled separately. Exceptions to this policy are:

a. requests for confidential information will be honored without prior consent of the student in connection with an emergency.

b. Official requests in connection with the audit and evaluation of federal or state supported programs or in connection with enforcement of federal or legal requirements which relate to such programs.

c. An official order of a court of competent jurisdiction.

d. Subpoena. (Students will be notified immediately by registered mail that their records are being subpoenaed.)

e. Persons or organizations providing financial aid to the student or determining financial aid decisions.

Control of Student Records

Transcripts and other information are released only with the written permission of the student. The only exception is that transcripts may be released by telephone request to another educational institution in which case the student receives written notification of such release.

Students have the right to inspect their own records. Upon inspection students are entitled to an explanation of any information contained in their record. Students have the right to copies of academic records of credits earned at Mitchell. Copies of transcripts and/or other information from institutions other than Mitchell must be requested from the originating institution.

An official student file shall not be sent outside the Counseling Office, Records Office, Financial Aid Office, Veterans Affairs Office, Adviser's Office or other custodial offices except in circumstances specifically authorized by the Dean of Student Services. The authorization for such special circumstances must be in writing. College officials responsible for the proper maintenance of education records include the Registrar, Admissions, and the Dean of Student Services.

A student who believes that information contained in records is inaccurate or misleading may request that the record(s) be amended. The request must be in writing and directed to the Dean of Student Services.

HANDICAPPED STUDENTS

Special parking facilities are available to handicapped students. Requests for special parking permits are to be submitted to the Dean of Student Services.

All permanent instructional facilities are readily accessible by handicapped students. Art and Criminal Justice are taught in temporary facilities. Special arrangements will be made for handicapped students who desire to use these facilities.

The Affirmative Action Officer is the person to contact for additional information concerning facilities for the handicapped. The office is in the Main Building.

FACULTY ADVISORS

Upon completion of the admissions process each student is assigned an advisor. In technical and vocational areas these advisors are the primary instructors. In the college transfer area advisors are randomly assigned. Recognizing that advisee-advisor relationships are as important as classroom instruction, advisors are available daily for assistance in needed areas. Specialized assistance is available through the Dean of Student Services.

PLACEMENT SERVICE

Mitchell Community College offers job placement service to students for part-time or full-time employment. The services of the Job Placement Office are available to current and graduating students, alumni, and prospective employers.

Graduating students are given counsel and assistance in preparing for job placement. Information pertaining to job opportunities is provided, along with assistance in gathering and presenting information to prospective employers. Further information may be obtained from the Job Placement Office.

COUNSELING

Counseling and guidance services are provided by the college to aid students in determining their vocational and educational programs as well as assisting in resolving problems of a personal nature which might affect progress toward educational objectives. Professionally trained counselors are available.

INTRAMURALS

A number of intramural competitions are organized for students by the Student Government Association and Student Services personnel.

STUDENT ORGANIZATIONS

Mitchell Community College encourages students to be active in affairs of the institution. Through organizations, the students will find opportunities for entertainment, making new friends, leadership, and service to the college community.

All student organizations must be approved by the administration and Student Government Association. Each organization must have a copy of its constitution or purpose which includes a statement of open membership without regard to race, color, religion, handicap, sex, creed, or national origin, and the name of a faculty advisor on file with the Student Government Association.

STUDENT GOVERNMENT ASSOCIATION

The purpose of the Student Government Association is to help each student develop a personal sense of pride for and responsibility to the college, and to accept his democratic responsibilities as an American citizen.

The Student Government Association acts as an intermediary between the student body and the administration of the college, serving as a student forum representing the student to the college faculty and administration. It also cooperates with the administration in the coordination and the supervision of student activities. All students who pay activity fees are members of the Student Association.

THE LEARNING RESOURCES CENTER

The Learning Resources Center provides resources and services which support the instructional program at Mitchell. Services include reference assistance, book selection, and interlibrary loans. Audiovisual services include equipment for viewing and listening and production facilities. A coin-operated copier, microfilm reader/printer, and microfiche reader/printer for students. There is also a reading room and typing room with electric typewriters on the second floor for student use. The "History Room" holds a combination of the history of Mitchell College, Iredell County, and North Carolina.

COLLEGE INFORMATION OFFICE

The Mitchell Community College Information Office is the college's official information agency, responsible for communicating to the public the word about Mitchell programs and people. This task is accomplished through the use of news releases, exhibits, speaker's bureau and other similar media.

Academic Regulations

QUARTER SYSTEM

Mitchell operates on a four quarter system. The fall, winter, spring and summer quarters are each approximately eleven weeks in length with additional summer sessions divided into two 51/2 week sessions. The college is in session five days a week. Classes normally meet hourly for fifty minutes with a ten minute break between them. The number of times that a class meets each *hour* per week is determined by the number of quarter hours credit.

Quarter hours credit is awarded as follows: one quarter hour of credit for each hour per week of class lecture, one quarter hour of credit for each two hours per week of laboratory work, and one quarter hour of credit for each three hours per week of shop practice.

REGISTRATION

All students are required to register at the beginning of each quarter of attendance. Students may not attend courses for which they are not officially enrolled. Formal completed enrollment is based on the official class rosters generated by the Registrar's Office as soon as possible after registration week.

CHANGE OF SCHEDULE

Changes in a class schedule after registration must be made in the office of the Registrar. The last day that courses may be added each quarter (normally three days after registration) is stated on the college calendar. Any student wishing to drop a course must complete the drop procedure processed through the office of the Registrar and the Business Office.

STUDENT COURSE LOAD

Students must register for 12 credit hours per quarter in college transfer and technical programs and 22 contact hours in vocational programs to be considered full-time, and the course load must not drop below these hours per quarter. These requirements are minimal to receive full VA. benefits.
The normal course load varies with each program. For college transfer the course

load is 16 credit hours per quarter while the normal course load for the technical programs is 18 credit hours per quarter. Vocational programs normally consist of at least 22 contact hours per week.

Students may not register for more than 21 credit hours without approval of the Dean of Student Services, unless required by their occupational curriculum. Approval of an overload will be determined on the basis of past achievement of the students.

It is recommended that students who are employed either on a part-time or full-time basis consult with their faculty advisors to determine the course load appropriate for their particular case.

CLASSIFICATION

Students are classified as freshmen from initial enrollment until 45 quarter hours credit have been earned, at which time they are classified as sophomores. For student activities purposes, students must have been enrolled for a minimum of three quarters before they are classified as sophomores.

ATTENDANCE POLICY

Regular class attendance is considered to be a vital ingredient in scholastic achievement and is one of the many responsibilities of the college student. As a result, the student is expected to be in attendance for each class meeting unless prohibited by uncontrollable events. No absence exempts the student from completing the work assigned during the absence. The student will assume the responsibility of determining what work was missed. Students anticipating an absence should contact their instructors in advance to make necessary arrangements.

The instructor is responsible for informing students in writing of the class attendance policy at the beginning of each quarter.

The instructor will inform the Registrar's Office when a student fails to comply with the attendance policy of the class or fails to attend for two consecutive weeks. The instructor will assign a grade of "F" at the end of the quarter to any student who has not complied with the class attendance policy or has failed to attend for two consecutive weeks. Students will receive a "W" instead of an "F" if they complete the proper withdrawal form in the Registrar's Office.

WITHDRAWAL POLICY

In order to officially drop a single course, a student must submit a completed drop form, signed by the instructor and the advisor, to the Registrar's Office.

In order to officially withdraw from school, a student must submit a completed withdrawal form to the Registrar's Office.

A student may drop a course or withdraw from all courses up to and including the published date to drop or withdraw with a grade of "W". A student who fails to drop or withdraw officially will receive a grade of "F" for any course not completed satisfactorily.

After the published drop or withdrawal date, withdrawals from school will be permitted only for medical or emergency situations; however, no withdrawals will be permitted after exams begin. In order to declare a medical or emergency situation, the student must submit a written request to the Dean of Student Services for approval. Additional documents may be required.

NOTE: Failure to attend class or to notify the instructor does not constitute an official drop or withdrawal.

GRADING SYSTEM AND GRADE POINT AVERAGE

The 4.00 grade point system is used to calculate student grade point averages. The letter grades used are:

A	Excellent - 4 grade points per quarter hour
B	Good - 3 grade points per quarter hour
C	Average - 2 grade points per quarter hour
D	Passing - 1 grade point per quarter hour
F	Failed - No grade points per quarter hour
*P	Pass
*NP	Non-Pass
I	Incomplete - Work must be completed satisfactorily within the next quarter, except that, where circumstances warrant, the instructor may approve an extension of time up to one year from the closing date of the course. If the "I" has not been removed by the designated date, a grade of "F" will be recorded.
W	Withdrawal - Denotes official withdrawal from school.
AU	Audit - No grade points.
NS	No Show-Recorded for students who register for classes, but do not attend at least one class session prior to the 20% point.

The grade point average is calculated by dividing the total number of quality points earned by the total number of quarter hours attempted, including both courses passed and failed, unless the courses have been repeated. When a course is repeated, the last grade earned will be included in calculating the GPA. All courses attempted will be shown on the official transcript.

A "C" average is required for graduation. On the 4.00 grade point system, a "C" average is a 2.00 grade point average.

*Given for developmental courses only. Institutional credit only is awarded. Hours are not counted toward graduation and are not figured in the student's grade point average.

GRADE REPORTS

Records of progress are kept by this institution on veteran and non-veteran students alike, and progress records are furnished all students at the end of each scheduled school quarter.

DEAN'S LIST

The Dean's List is published at the end of each quarter. It is published as follows:

Full time-Any student enrolled for at least twelve quarter hours and earns a grade point average of 3.5 or better with no grade below "C" will be on the Full Time Dean's List for that quarter.

Part Time-Any student enrolled for at least six quarter hours, but less than twelve, and earns a grade point average of 3.5 or better with no grade below "C" will be on the Part Time Dean's List for that quarter.

GRADUATION HONORS

High Honors-A student who has a cumulative grade point average of 3.75 or greater with no grade below a "C" will receive High Honors at graduation.

Honors-A student who has a cumulative grade point average of 3.50 to 3.74 with no grade below a "C" will receive Honors at graduation.

At lease fifty percent of the curriculum requirements must be completed at Mitchell Community College to be eligible for honors at graduation. Certificate programs do not qualify for honors.

GRADUATION MARSHALS

The graduation marshals are those freshmen who have the highest grade point average for their first two quarters and have earned a minimum of 30 quarter hours. They will assist in graduation exercises.

SATISFACTORY ACADEMIC PROGRESS

The following scale will be used as a basis for determining a student's status for certification purposes to the Veteran's Administration, Social Security, Vocational Rehabilitation, student loans and scholarship agencies, conditional status, and other private or public agencies requiring such information.

Students receiving financial aid must maintain satisfactory academic progress to

continue receiving aid. The total hours attempted are utilized in the computation of the overall accumulative grade point average. This includes both courses passed and failed, unless the course has been repeated. When the course is repeated, the last grade earned will be included in the calculation of the grade point average. For further information, see the Financial Aid Section of the catalog.

Veteran students must meet the requirements for academic progress as set forth below. If veterans do not meet this requirement, they will be placed on academic probation for one quarter. If they do not bring their overall grade point average up to within school standards by the end of that quarter, they will be terminated with the Veterans Administration in Winston-Salem. The procedure for reinstatement of VA benefits is given on page 18.

Degree Programs		**Diploma Programs**		**Certificate Programs**	
Hours	*GPA*	*Hours*	*GPA*	*Hours*	*GPA*
0-15	1.00	0-20	1.25	0-7	1.50

61-75	1.90				
76-	2.00				

Students enrolled in the Nursing Program please see Nursing Policy and Procedure Manual, PROGRESSION POLICY.

CREDIT BY EXAMINATION

Credit by examination may be allowed for a given course if a regularly enrolled student can demonstrate the required level of proficiency as a result of independent study and experience. This credit will be based on a division examination under the direction of the Asistant Dean of the division in which the course is offered. Credit hours will count toward graduation; they will not be computed in grade point average as grades and quality points will not be recorded. Application for credit by examination must be processed in the Registrar's Office. Tuition must be paid except in cases of full-time students for whom there would be no additional charge. Examinations may be scheduled at the discretion of the Assistant Dean involved. Not all courses may be challenged, and those appropriate must be determined by the Assistant Dean.

ADVANCED PLACEMENT

Students entering Mitchell Community College from Iredell/Statesville Schools, or Mooresville Graded Schools may be awarded advanced placement credit as provided in an agreement between these school systems and Mitchell Community College.

Advanced placement credit based on high school achievement may be allowed to students enrolling full-time in the Business Department. Details concerning specific requirements are available from counselors at the high schools or at Mitchell Community College.

Students enrolled in the Nursing Programs, please see the Nursing Policy and Procedure Manual.

DEVELOPMENTAL STUDIES PROGRAM

The goal of the Developmental Studies Program is to meet the challenge of the college's "open door" admissions policy, which brings students of varying educational needs and abilities to the campus, and to fulfill the college's purpose "to be of optimum educational and cultural service to the people within its geographical area." The college is committed, through the Developmental Studies Program, to providing ample opportunities for all students to meet their educational needs. The program offers to students course work, Mind Lab opportunities, and counseling designed to both remediate specific academic weaknesses and to develop other skills necessary to success in college. Upon completion of the developmental work prescribed as a result of placement, students will be better prepared for the demands of their chosen curriculum.

THE CAREER CENTER

The Career Center offers individuals, ranging from high school age through the adult years, assistance in the process of examining and exploring career opportunities. The following services are available:

Career Counseling Assistance in clarifying each individual's career objective including a plan of action.

Vocational Testing Career interest inventories assist an individual in determining vocational areas of interest. An understanding is gained of one's interests, skills, and values.

Advisement Guidance is offered in the selection of academic major. Information regarding various college services and referral to appropriate offices.

Career Information Library Contains information on numerous occupations: an overview of job descriptions, salaries, training requirements, advancement opportunities, and trends.

Job-Finding Skills Development Information on how to implement job search strategies, the interviewing process, the hidden job market, job seeking skills, and resume writing.

Computerized Vocational Guidance Software programs which facilitate the career decision-making process and which contain current information on various career areas.

Study Skills Development Instruction provided through seminar, publications, and videocassette.

THE MITCHELL INSTRUCTIONAL AND DEVELOPMENTAL LABORATORY

The MIND Lab provides assistance in course work to curriculum students. Writing help and tutoring assistance in all course work are the primary services offered. Computers are available to students for composing and printing of papers.

The MIND Lab hours will be posted each quarter.

AUDITING CLASSES

Classes may be audited with permission of the instructor if space is available; however, no class may be audited more than once. The audit may occur either before or after taking the course for credit. Priority will be given to regular credit students. Any class with more than fifty percent audits may not be taught. No one will be allowed to audit an independent study or independent studio course.

Participation in class discussion and examinations is the option of the instructor. No credit by examination can be allowed for courses that have been audited. A grade of "AU" will be recorded with no hours credit or quality points. Registration or changes in registration for audits must be completed during the regular registration or change periods. Regular fees will be charged.

Any exception must be approved by the Dean of Student Services.

REPEATING COURSE WORK

Any course in which an "F" or "D" is received may be repeated until a grade of "C" or better is earned. The last grade earned will be used in calculating the GPA. All courses attempted will be shown on the official transcript.

No course may be counted for credit more than once except for physical education activity courses, which may count twice, and certain vocational courses in which state certification is mandated.

In those cases where a course in which the student received an "F" is not offered during the remainder of that student's residence, an equivalent course may be substituted upon recommendation of the Assistant Dean or program director for purposes of meeting program requirements.

Any exception must be approved by the Dean of Student Services.

TRANSCRIPTS

An official transcript of work at Mitchell Community College will be sent to the appropriate institution upon written request by the student. No transcript will be released until the student's account is cleared with the Business Office and the Library.

REQUIREMENTS FOR GRADUATION

The following requirements apply to programs; however, some divisions may have additional requirements applicable only to that division.

1. Students in the programs awarding diplomas are required to reach a reading proficiency level. Students in programs awarding the Associate in Arts, Associate in Fine Arts, Associate in Science, or Associate in Applied Science degrees are required to make satisfactory scores on the reading placement test, or successfully complete reading requirements.

2. Students may graduate under the Catalog in which they entered, or may elect to graduate under any catalog issued after entry into the College and prior to graduation provided they were enrolled in the College during the time when the catalog was in effect. Along with the appropriate number of hours earned and the completion of all required courses for their specific program, students must have a 2.00 grade point average in order to graduate and receive a degree, diploma, or certificate. No course substitutions may be made and no graduation requirements may be waived without recommendation from the program director, Assistant Dean, and administrative approval.

3. Application for graduation and payment of graduation fees must be made during the registration period for the student's last quarter.

4. Presence at graduation is a requirement. When attendance is impossible, the student may petition, in writing, the Dean of Student Services for permission to graduate in absentia.

5. A minimum of thirty quarter hours credit in the student's program of study must be earned at Mitchell Community College in order to be eligible for graduation, except in the nursing program.

6. In the Associate Degree Nursing program a minimum of 43 credit hours in nursing courses must be earned at Mitchell Community College.

7. A maximum of eleven quarter hours credit may be earned at another institution and accepted for graduation purposes after a student transfers from Mitchell Community College.

8. In addition to the above school requirements, an exit interview with the nursing faculty is required. This is a compilation of the rating of the student by all clinical instructors who have supervised that student. The exit interview will be included as part of all future employment references.

Educational Programs

Mitchell Community College offers a wide range of planned educational programs. The programs may range in length from four quarters to seven quarters. Formal recognition for successful completion of a program will vary depending on the nature of the curriculum. Mitchell Community College recognizes successful academic completion as:

College Transfer:

Associate in Arts Degree - minimum 96 quarter hours credit
Associate in Fine Arts Degree - minimum 96 quarter hours credit with 36 hrs. in Fine Arts
Associate in Science Degree - minimum 96 quarter hours credit

College Transfer Programs:

Pre-Art	-C-003
Pre-Business Administration	-C-004
Pre-Liberal Arts	-C-011
Pre-Science	-C-018
Special Credit	-C-301

Technical:

Associate in Applied Science Degree -minimum 108 quarter hours credit; Certificate - minimum 16 quarter hours credit.

Technical Programs:

Accounting	-T-016
Administrative Office Technology	-T-030
Associate Degree Nursing	-T-059
Business Administration	-T-018
Business Computer Programming	-T-022
Criminal Justice	-T-129
Drafting and Design Engineering Technology	-T-043
Electronics Engineering Technology	-T-045
General Office	-T-033
Industrial Management Technology	-T-049
Special Credit	-T-301

*Other Programs

Vocational:

Diploma - minimum 64 quarter hours credit.
Certificate - minimum 16 quarter hours credit.

Vocational Programs:

Air Conditioning Heating & Refrigeration	-V-024
Automotive Mechanics	-V-003
Basic Law Enforcement Training	-T-189
Cosmetology	-V-009
Electrical Installation & Maintenance	-V-O18
Industrial Electronic	-V-045
Industrial Maintenance	-V-028
Medical Assisting	-V-031
Nursing Assistant	-V-072

Welding	-V-050
Special Credit	-V-301

* Medical Record Technology (T-053), and Respiratory Care Technology (T-091) are offered in partnership with other community colleges. Generally; the majority of the first year course can be taken at Mitchell Community College.

The remainder of the courses must be taken at or through appropriate cooperating institution.

READING REQUIREMENTS FOR ALL PROGRAMS

The following requirements must be successfully met by students in all programs:

Associate in Arts, Associate in Fine Arts, Associate in Science -
Must make a satisfactory score on the reading test, or take Reading 092 and 094, or take 094.

Associate in Applied Science and Diploma programs-
Must make a satisfactory score on the reading test, or take Reading 092 and 094, or take 094.

COLLEGE TRANSFER PROGRAMS

College transfer curricula are designed for students who intend to transfer to a senior institution to pursue a baccalaureate degree. Flexible by design, the courses can be selected to meet the general education requirements of most colleges and universities. Students in these curricula are encouraged to examine the requirements of the senior institution to which they plan to transfer for completion of their four-year degree. Counselors and advisors are available to assist students in designing their programs. The minimum requirement for Associate in Arts, Associate in Science, and Associate in Fine Arts degrees is 96 quarter hours as specified below, with an overall grade point average of 2.00 or higher.

ASSOCIATE IN ARTS DEGREE

Communications ..... 10 credit hours
ENG 155, 156 required.

Physical Education..... 3 credit hours

Humanities and Fine Arts..... 14 credit hours
Courses must be selected from art, modern language, literature, music, religion, and oral communication but must include at least 5 credit hours in literature.

Mathematics..... 5 credit hours
MAT 161 or higher level course required.

Science ..... 12 credit hours
Introductory science sequence required

Social Science ..... 15 credit hours
Western Civilization or American History sequence required.

Electives .....37 credit hours

Students should select electives which correspond with their major and the institution to which they wish to transfer.

ASSOCIATE IN SCIENCE DEGREE

Communications ..... 10 credit hours
ENG 155, 156 required.

Physical Education..... 3 credit hours

Humanities and Fine Arts.....13 credit hours
Courses must be selected from art, modern language, literature, music, religion and oral communication but must include at least 5 hours credit in literature

Mathematics ..... 20 credit hours
Completion of MAT 253 required.

Science ..... 24 credit hours
Two complete three-course sequences required.

Social Science ..... 10 credit hours
Western Civilization or American History sequence required.

Electives ..... 16 credit hours

Students should select electives which correspond with their major and the institution to which they wish to transfer. Courses in Computer Programming are recommended.

ASSOCIATE IN FINE ARTS DEGREE

Communications ..... 10 credit hours
ENG 155, 156 required.

Humanities and Fine Arts..... 11 credit hours
Courses must be selected from literature, modern language, religion, music, and oral communication but must include 5 credit hours in literature.

Mathematics ..... 5 credit hours
MAT 161 or higher level course required.

Science .....12 credit hours
Introductory science sequence required.

Social Science .....10 credit hours
Western Civilization or American History sequence required.

Physical Education..... 3 credit hours
Electives ..... 5 credit hours
Liberal arts area and/or areas related to major

Professional Program Courses..... 40 credit hours

SPECIAL CREDIT (C-301, T-301, V-301)

These programs are designed for those students who have no desire to work toward a degree, diploma, or certificate but want to take courses. As soon as a student decides to work toward a degree, diploma, or certificate he/she should notify the college so that he/she can be properly advised of requirements, and what he/she must do to meet those requirements.

TECHNICAL PROGRAMS

Technical curriculums are designed to prepare individuals for employment in fields recognized as semiprofessional or paraprofessional in status. They are comprised of collegiate-level studies (not necessarily transferable) providing a greater degree of theoretical knowledge than manipulative skills and are oriented to a broad occupational cluster. Programs involve the application of scientific principles in research, design, development, production, distribution, or service. Programs consist of a sequence of courses which generally can be completed in two years by a full-time student.

The Associate in Applied Science (A.A.S.) degree is awarded to the graduate of a technical curriculum. Such programs require from 96 to 128 quarter hour credits. The certificate is awarded to the graduate of a technical specialty curriculum, which must include at least 16 quarter hours credits.

An overall grade point average of 2.00 or higher is required for all degrees and certificates.

ACCOUNTING (T-016)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The purpose of the Accounting curriculum is to prepare the individual to enter the accounting profession through study of accounting principles, theories and practices with related study in law, finance, management and data processing operations.

The curriculum is designed to prepare the individual for entry-level accounting positions, such as junior accountant, bookkeeper, accounting clerk, cost clerk, payroll clerk and related data processing occupations.

With experience and additional education, the individual will be able to advance to positions such as system accountant, cost accountant, budget accountant and property accountant.

ADMINISTRATIVE OFFICE TECHNOLOGY (T-030)

Associate in Applied Science Degree

This curriculum prepares individuals to perform secretarial and administrative support duties in a variety of offices including those offices with computerized, automated functions.

Students in this curriculum study keyboarding and word/information processing to develop skills in the preparation of business correspondence, reports, statistical copy, manuscripts and business forms. Administrative support courses emphasize typical office tasks such as scheduling appointments, composing correspondence and performing reprographic duties. Training is also provided in analyzing and coordinating office duties and systems. Skills and knowledge are taught in the areas of electronic document storage and retrieval and computer software utilization.

Graduates of the program may be employed in offices in private business establishments involved in retailing, marketing, advertising, and manufacturing as well as offices in local, state, and federal government.

ASSOCIATE DEGREE NURSING PROGRAM (T-059)
ASSOCIATE IN APPLIED SCIENCE

The Associate Degree Nursing curriculum is designed to prepare graduates to integrate the principles and theories of nursing and the sciences in utilizing the nursing process in the practice of nursing. The practice of nursing by associate degree nursing graduates consists of: (1) assessing the patient's physical and mental health, including the patient's reaction to illness and treatment regimens; (2) recording and reporting the results of the nursing assessment; (3) planning, initiating, delivering, and evaluating appropriate nursing acts; (4) teaching, delegating to or supervising other personnel in implementing the treatment regimen; (5) collaborating with other health care providers in determining the appropriate health care for a patient; (6) implementing the treatment and pharmaceutical regimen prescribed by any person authorized by State law to prescribe such a regimen; (7) providing teaching and counseling about the patient's health care; (8) reporting and recording the plan for care, nursing care given, and the patient's response to that care; and (9) supervising, teaching, and evaluating those who perform or are preparing to perform nursing functions.

Graduates are eligible to take the National Council Licensure Examination (NCLEX-RN) which is required for practice as a registered nurse.

Individuals desiring a career in registered nursing should take algebra and chemistry courses prior to entering the program.

BUSINESS ADMINISTRATION (T-018)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The Business Administration curriculum is designed to prepare an individual for entry into management positions.

The curriculum develops competencies in the application of management principles. Emphasis is placed on skill development in the areas of management functions, computer applications and analysis, critical thinking and decision-making techniques, marketing, finance, legal aspects of business, oral and written communications, and the utilization of human resources.

Through the development of management competencies, the graduate will be able to function as a contributing member of a management team.

BUSINESS COMPUTER PROGRAMMING (T-022)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The primary objective of the Business Computer Programming curriculum is to prepare individuals for gainful employment as computer programmers. The objective is fulfilled through study and application in areas such as computer and systems theories and concepts, data processing techniques, business operations, logic, flow charting, programming procedures and languages and types, uses and operation of equipment.

Entry-level jobs as computer programmer and computer programmer trainee are available. With experience and additional education, the individual may enter jobs such as data processing manager, computer programmer, systems analyst and systems manager.

CRIMINAL JUSTICE
PROTECTIVE SERVICES TECHNOLOGY (T-129)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The Criminal Justice Technology curriculum is designed so that it may be a multifaceted program of study. It may consist of study options in corrections, law enforcement and security services.

The curriculum is designed with a core of courses to afford one the opportunity to acquire basic knowledge, skills and attitudes in the generally accepted subject areas associated with a two-year study of correctional services, law enforcement services and security services. It includes subjects such as interpersonal communications, law, psychology, and sociology.

In addition to core subjects, the correctional services option provides an opportunity to study other generally accepted subjects indigenous to a two-year correctional services program such as confinement facility administration, correctional law, counseling, probation-parole services and rehabilitation options. Similarly, the law enforcement option provides an opportunity to study other generally accepted subjects included in a two-year law enforcement services program such as criminal behavior, criminal investigation, patrol operation, traffic management, and other aspects of law enforcement administration and operations.

Job opportunities are available with federal, state, county and municipal governments. In addition, knowledge, skills and attitudes acquired in this course of study qualify one for job opportunities with private enterprise in such areas as industrial, retail and private security.

DRAFTING AND DESIGN ENGINEERING TECHNOLOGY (T-043)

Associate in Applied Science Degree

The drafting and design technology curriculum prepares technicians for drafting and/or designing mechanical parts, mechanisms and mechanical systems.

Emphasis in placed on developing the student's ability to think and plan as well as on the development of drafting and design skills. Computer Aided Drafting (CAD) and conventional equipment will be used to produce drawings such as sectional views, subassemblies and major components of machinery and mechanical systems.

Course work includes the study of technical drafting and design, materials, applied mechanics, mechanical systems, manufacturing methods, manufacturing processes, applied physics, technical mathematics, descriptive geometry, computer applications and written and oral communications.

Drafting and design technicians are employed in many types of manufacturing, fabrication, research and development and service industries.

ELECTRONICS ENGINEERING TECHNOLOGY (T-045)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The Electronics curriculum provides a basic background in electronic related theory, with practical applications of electronics for business and industry. Courses are designed to develop competent electronics technicians who may work as assistants to engineers or as liaisons between engineers and skilled craftspersons.

The electronics technician will start in one or more of the following areas: research, design, development, production, maintenance or sales. The graduate may begin as an electronics technician, an engineering aide, laboratory technician, supervisor or equipment specialist.

GENERAL OFFICE (T-033)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The purposes of the General Office curriculum are to: (1) prepare the individual to enter clerical-office occupations, (2) provide an educational program for individuals wanting education for upgrading (moving from one position to another) or retraining (moving from present position to a clerical position), and (3) provide an opportunity for individuals wanting to fulfill professional or general interest needs.

These purposes will be fulfilled through skill development in the areas of typewriting, filing and business machines. Through these skills and through development of personal competencies and qualities, the individual will be able to function effectively in office-related activities.

INDUSTRIAL MANAGEMENT (T-049)

ASSOCIATE IN APPLIED SCIENCE DEGREE

The Industrial Management curriculum is designed to provide an individual with the ability to function effectively in supervisory and middle-management positions in industry. This program emphasizes study and application in areas such as business and industrial management, production methods and schedules, inventory control, work analysis, motivation techniques and human relations.

This curriculum is designed to prepare the individual to enter supervisory or middle-management positions, to provide an educational program for upgrading or retraining, and to provide an opportunity for the individual wanting to fulfill professional or general interest needs.*

*Includes preparing individuals for certification by the American Production and Inventory Control Society (APICS).

INDUSTRIAL MANAGEMENT (T-049)

Certificate Program

The Industrial Management Technology Certificate is designed to provide the individual with an overview of important production management skills, techniques, and knowledge necessary to function effectively in a lower level supervisory position in industry. Certificate may be completed on a part-time basis within one year.

		Course Title	Qtr. Hours Credit

VOCATIONAL PROGRAMS

Vocational curriculums are designed to prepare individuals for skilled or semi-skilled employment opportunities and study is primarily oriented to the development of manipulative skill competencies for use in a specialized occupation. Programs consist of a sequence of courses which generally can be completed in one year or less by a full-time student and successful completion of a vocational curriculum program leads to a diploma or certificate.

The diploma is awarded to the graduate of a vocational curriculum that is 64 or more quarter hour credits in length. The college may offer specially designed certificate curriculums by selecting a series of existing specialty courses from approved diploma curriculums. Such certificate curriculums must be at least 16 quarter hour credits in length.

An overall grade point average of 2.00 or higher is required for all diplomas and certificates.

AIR CONDITIONING, HEATING AND REFRIGERATION (V-024)

DIPLOMA PROGRAM

The Air Conditioning, Heating and Refrigeration curriculum is designed to teach knowledge and skills necessary for servicing and installing residential and light commercial climate control equipment. Instruction will include heating and cooling theory, applied electricity and electronics, and the operating principles for a wide-range of heating and cooling' equipment. The diploma program will emphasize start-up and service skills for oil, gas and electric furnaces, air-cooled air conditioning and air-to-air heat pumps.

AUTOMOTIVE MECHANICS (V-003)

DIPLOMA PROGRAM

The Automotive Mechanics curriculum provides a training program for developing the basic knowledge and skills needed to inspect, diagnose, repair and adjust automotive vehicles. Manual skills are developed in practical shop work and the technical understanding of the operating principles involved in the modern automobile are taught through class assignments, discussions and shop practices.

Automobile mechanics maintain and repair mechanical, electrical and body parts of passenger cars, trucks and buses. In some communities and rural areas they also may service tractors or marine engines and other gasoline-powered equipment. Mechanics inspect and test to determine the causes of faulty operation. They repair or replace defective parts to restore the vehicle or machine to proper operating condition and use shop manuals and other technical publications as references for technical data. Persons completing this curriculum may find employment with franchised automobile dealers, independent garages, or may start their own business.

BASIC LAW ENFORCEMENT TRAINING (T-189)

The Basic Law Enforcement Training curriculum certificate program prepares individuals to take the Basic Training Law Enforcement Officers certification examination mandated by the North Carolina Criminal Justice Education and Training Standards Commission and/or it prepares individuals to take the Justice Officers Basic Training certification examination mandated by the North Carolina Sheriffs' Education and Training Standards Commission. Successful completion of this curriculum certificate program requires that the student satisfy the minimum requirements for certification by the Criminal Justice Commission and/or the Sheriffs' Commission. The student satisfactorily completing this program should possess at least the minimum degree of general attributes, knowledge, and skills to function as an inexperienced law enforcement officer.

Job opportunities are available with state, county, and municipal governments in North Carolina. In addition, knowledge, skills, and abilities acquired in this course of study qualify one for job opportunities with private enterprise in such areas as industrial, retail, and private security.

COSMETOLOGY (V-009)

ADVANCED DIPLOMA PROGRAM

The field of cosmetology is based on scientific principles. The Cosmetology curriculum provides instruction and practice in manicuring, shampooing, permanent waving, facials, massages, scalp treatments, hair cutting and styling, wig service, hair coloring and bleaching (lightening), hair pressing, marcelling, and chemical relaxing.

Upon completion of this program and successful passing of a comprehensive examination administered by the North Carolina State Board of Cosmetic Arts, a license is given. The cosmetologist is called upon to advise men and women on problems of make-up and care of the hair, skin and hands including the nails. Employment opportunities are available in beauty salons, private clubs, department stores, women's specialty shops, as well as setting up one's own business.

Mitchell Community College offers this curriculum through a contractual agreement with Hair Stylist Academy. Classes are offered at Hair Stylist Academy in Statesville. Related courses are taught on the Mitchell campus.

ELECTRICAL INSTALLATION AND MAINTENANCE (V-018)

DIPLOMA PROGRAM

The Electrical Installation and Maintenance curriculum is designed to provide a training program in the basic knowledge, fundamentals and practices involved in the electrical trades. A large segment of the program is laboratory and shop instruction designed to give the student practical knowledge and application experience in the fundamentals taught in class.

The graduate of this curriculum is qualified to enter an electrical trade as an on-the job trainee or apprentice, assisting in the layout, installation check out and maintenance of systems in residential, commercial or industrial settings.

INDUSTRIAL ELECTRONICS (V-045)

DIPLOMA PROGRAM

This program is designed to prepare individuals to repair and maintain electronic machines, controls, and components which are used by various industrial operations. Individuals in the program learn to read blueprints, to determine repair procedures, to dismantle and assemble electronic components and to make necessary sensitive adjustments to meet specifications. A large portion of the laboratory time is spent verifying electronic principles and developing service techniques.

The graduate of this curriculum is prepared to maintain and service industrial electronic devices found in most manufacturing and service operations.

INDUSTRIAL MAINTENANCE (V-028)

DIPLOMA PROGRAM

The curriculum in Industrial Maintenance prepares students to repair and maintain machinery, electrical wiring and fixtures, and hydraulic and pneumatic devices found in industrial establishments.

Industrial maintenance persons may be required to install, maintain and service mechanical equipment; follow blueprints and sketches; and use hand tools, metalworking machines, measuring instruments and testing instruments. They operate metalworking machines such as the lathe, milling machine and drill press to make repairs. They use the micrometer and calipers to verify dimensions. They assemble wires, insulation, and electrical components using hand tools and soldering equipment. They test electrical circuits and components to locate shorts, faulty connections and defective parts. They inspect, test and repair hydraulic equipment.

MEDICAL ASSISTING (V-031)

DIPLOMA PROGRAM

The Medical Assisting curriculum prepares the graduate to assist the physicians in their offices or other medical settings such as hospitals and clinics, performing those administrative and clinical duties delegated by the physician and in accord with respective state laws governing such actions and activities. The business/administrative duties include scheduling and receiving patients, obtaining patient data, maintaining medical records, typing and medical transcription, computer operations; handling telephone calls, correspondence, reports and manuscripts; assuming responsibility for office care, insurance matters, office accounts, fees and collections; and purchasing and maintaining supplies and equipment. The clinical duties may include preparing patients for examinations, obtaining vital signs, taking medical histories, assisting with examinations and treatments, performing routine laboratory procedures including electrocardiograms, sterilizing instruments and equipment for office procedures, and instructing patients in X-ray and laboratory examinations.

Graduates of programs accredited by The Committee on Allied Health Education and Accreditation (CAHEA) may apply to take the certification examination administered by the Certifying Board of the American Association of Medical Assistants.

Advanced credits can be awarded toward completion of requirements for an Associate of Applied Science Degree in Medical Assisting (T-058).

Individuals desiring a career in medical assisting should, if possible, take biology, mathematics and typing courses prior to entering the program.

	Course Titles	Hours Credit

Part-time students may take NUR 1111 as follows:

NUR	1111A	Nursing Assistant IIA	4
NUR	1111B	Nursing Assistant IIB	4

WELDING (V - 050)

DIPLOMA PROGRAM

The Welding curriculum gives students sound understanding of the principles, methods, techniques and skills essential for successful employment in the welding field and metals industry. Welders join metals by applying intense heat, and sometimes pressure to form a permanent bond between intersecting metals.

Welding offers employment in practically any industry; shipbuilding, automotive, aircraft, guided missiles, heavy equipment, railroads, construction, pipe-fitting, production shops, job shops and many others.

CURRICULUM COURSE DESCRIPTIONS

Following the course name and number appears a numerical code which should be interpreted as follows: first number indicates the number of credit hours; the second number indicates the number of lecture hours; the third number indicates the number of laboratory hours; and the fourth number indicates the number of shop practice hours.

AIR CONDITIONING, HEATING, AND REFRIGERATION

AHR 1101 AUTOMOTIVE AIR CONDITIONING 3 (2-0-3)
General introduction to the principles of refrigeration; study of the assembly of the components and connections necessary in the mechanisms, the methods of operation, and control; proper handling of refrigerants in charging the system. Use of testing equipment in diagnosing trouble, conducting efficiency tests and general maintenance work. Prerequisite: PHY 1101.

AHR 1110 INDUSTRIAL HEATING..... 4 (3-0-3)
This is a basic study of the science of heating through the use of circulating hot water and steam. There will be an introduction to both gas- and oil-fired boilers. The course also covers boiler fittings, feed water accessories, steam accessories, combustion accessories, draft control, water treatment, boiler operation and boiler room safety. Prerequisites: ELC 1104, ELN 1118.

AHR 1111 AUTOMATIC CONTROLS I..... 2 (1-0-3)
A step-by-step introduction to the foundation necessary for advanced study in controls. Topics include nature of electricity, rules governing electricity, inductive and capacitive circuits, principles of motor operation, power, transformer principles, relay principles, analyzing control circuits.

AHR 1112 AUTOMATIC CONTROLS II..... 2 (1-0-3)
The use and care of test instruments and equipment used in servicing electrical apparatus for air conditioning and refrigeration installations. Electrical principles and procedures for troubleshooting of the various electrical services used in air conditioning, heating and refrigeration equipment. Included will be transformers, various types of motors and starting devices, switches, protective devices and wiring. Prerequisites: AHR 1111, AHR 1121.

AHR 1115 FUNDAMENTALS OF HEATING..... 2 (2-0- 3)
An introduction to the fundamentals of warm air heat, including oil, gas, and electric forced air systems. Emphasis is placed upon terminology, operating principles, theory, components and materials utilized in installation and servicing. Prerequisite: None

AHR 1116 SERVICING HEATING SYSTEMS..... 2 (0-6- 4)
An introduction to the servicing and repair procedures for electric, gas, and oil warm air heating systems. Emphasis is placed on students' hands-on practice in servicing, the analysis of operating malfunctions, and the repair of system components. Students will learn systematic procedures for diagnosing and repairing mechanical and electrical malfunctions.
Corequisites: AHR 1115, ELC 111

AHR 1121 PRINCIPLES OF REFRIGERATION..... 3 (0-9- 6)
An introduction to the principles of refrigeration. Emphasis is given to terminology, safety, the use and care of tools and equipment, the identifica-

tion and function of component parts of refrigeration systems, and refrigerant piping practices. Students will have an opportunity to practice working with hand tools, materials, and piping in order to develop basic skills in the installation, service and repair of the refrigeration components of air-conditioning systems. Prerequisite: None, Corequisite: WLD 1111

AHR 1123 FUNDAMENTALS OF AIR CONDITIONING..... 2 (2-0- 3)
Principles of air-cooled air conditioning systems operation including room cooling units and split and packaged air-to-air systems. Emphasis is placed on terminology, components, and the measuring and control of factors affecting air movement and cleaning, temperature and humidity control. Students will learn how to calculate the cooling comfort needs of a conditioned space; use psychrometric charts to determine equipment performance needs to produce optimum temperature and humidity control; and how manufacturers' performance specifications are utilized to determine air distribution system requirements. Prerequisites: AHR 1121

AHR 1124 AIR CONDITIONING, HEATING, AND REFRIGERATION SERVICING.....4 (2-0-6)
Emphasis is placed on the installation, maintenance, and servicing of equipment used in the cleaning, changing, humidification and temperature control of air in an air conditioned space. Lab work involves burner operation, controls, testing and adjusting of air conditioning and refrigeration equipment, and location and correction of equipment failure.
Prerequisites: AHR 1123, AHR 1115

AHR 1125 HEAT LOSS AND HEAT GAIN CALCULATIONS.....3 (3-0-0)
All-season air conditioning requirements, heat loss and heat gain calculations, heat transfer, and comfort students psychrometrics, humidifiers, electronic air cleaners, and heat pump principles of operation.

AHR 1127 AIR CONDITIONING SERVICE.....2 (0-6-4)
Installation, routine servicing, problem diagnosis, and repair air-cooled air conditioning systems. Emphasis is placed on the correct methods for locating, assembling, wiring, connecting to duct systems, charging, and system start-up and performance checks. Additional emphasis is placed on systematic problem diagnosis and repair procedures for refrigeration, electrical, and control system malfunctions. Students will learn how to properly install, perform routine service maintenance on, evaluate the cooling performance of, and apply systematic problem diagnosis and repair procedures to room cooling units and split and packaged systems.
Prerequisites: AHR 1121, Corequisite: AHR 1123.

AHR 1130 ALL-WEATHER SYSTEMS: CONVENTIONAL..... 3 (0-9-6)
Principles of combination heating and cooling systems including gas-electric, all electric, oil-electric, and other combination systems. Emphasis is placed on proper safety and operational controls, selection and assembly of components, and installation of a complete all weather system. Students will learn how to construct, test, evaluate the performance of, and adjust all-weather conventional systems. In addition, students will learn how to solve service problems and to modify and/or repair an improperly installed system. Prerequisites: AHR 1115, AHR 1116, AHR 1111, AHR 1112

AHR 1131 ALL WEATHER SYSTEMS: HEAT PUMP..... 3 (0-9-6)
Principles of installation, service, and repairing of air-to-air heat pumps. Emphasis is placed on the different refrigeration cycles, selections of the components of a complete system, proper application and installation practices, and service procedures for air-to-air heat pump systems. Students will learn how to properly size and install a complete system, perform routine service procedures, analyze performance, and to apply systematic problem diagnosis and repair procedures.
Prerequisites: AHR 1116, AHR 1117, AHR 1121.

ANTHROPOLOGY

ANT 251 INTRODUCTION TO ANTHROPOLOGY..... 5 (5-0-0)
The study of mankind and culture includes the biological and cultural history of humans; human variation and adaptation; how today's societies differ in their language, subsistence, marriage and family patterns, kinship, politics, religion, and art; and a review of contemporary American culture.

ART

ART 150 BASIC DESIGN..... 3 (0-6-0)
Upon completion of this course, the student will be able to identify and use the principles and elements of design as they relate to the two dimensional surface. Flat pattern development, pictorial composition, depiction of special illusion, and value analysis will have been studied.

ART 151 DRAWING I.....3 (0-6-0)
Upon completion of this course, the student should be able to identify problems and possible graphic solutions of representing visual experience on the two-dimensional surface. The student will have explored a variety of material including pencil, pen and ink, conte, and charcoal and will have employed various techniques with an emphasis upon utilizing these materials and techniques as a means of personal expression.

ART 152 DRAWING II..... 3 (0-6-0)
Upon completion of this course, the student will have been introduced to the study of perspective and other systemized methods of rendering the illusion of form and space. The student will be able to apply elements of good pictorial composition and will have continued to develop technical competence in the use of a variety of material and techniques.
Prerequisite: ART 151 or permission of instructor.

ART 155 SERIGRAPHY 3 (0-6-0)
Students will demonstrate an understanding of silk screening as a fine art by designing and producing editions of prints which use various techniques such as paper, knife-cut, and photopositive stencils with emphasis on layout and color separation.

ART 156 CRAFTS 3 (0-6-0)
Upon completion of this course, the student should be able to design, construct, and exhibit fiber, wood, and glass craft projects.

ART 157 CERAMICS I..... 3 (0-6-0)
Upon completion of this course, the student should be able to (1) design and produce projects by the pinch pot, coil, slab, and potter's wheel methods; (2) utilize various glaze techniques.

ART 158 CERAMICS II..... 3 (0-6-0)

Upon completion of this course, the student should be able to (1) design and produce ceramic projects building on the foundation of skills acquired in Ceramics I, (2) construct one major sculpture project which will combine at least one additional material with the clay, (3) keep an individual test tile record of glaze experiments.

Prerequisite: ART 157 or permission of instructor.

ART 159 CERAMICS III.....3 (0-6-0)

Upon completion of this course, the student should be able to (1) design and produce projects building on the foundation of skills acquired in Ceramics I and II; (2) weigh, mix, and apply glaze formulas to ceramics projects; (3) describe how to load, fire, and unload electric kiln.

Prerequisite: ART 158 or permission of instructor.

ART 160 WATERCOLOR I..... 3 (0-6-0)

Through exercises in technical methods and various approaches to idea generation, the student will be able to produce watercolor paintings which demonstrate a mastery of this medium.

ART 161 WATERCOLOR II.....3 (0-6-0)

This course is designed to allow further experience and research in the medium of watercolor. Exercises in composition, expression, and color theory will be explored as well as intensive practice in directional interests in content and subject matter. Prerequisite: ART 160 or permission of instructor.

ART 162 WATERCOLOR III.....3 (0-6-0)

An advanced studio course to further refine the student's skill with the particular medium. Nature studies and paintings from imagination will be considered as the main areas of concentration. Ideas concerning product, presentation and exhibition will be explored.

Prerequisite: ART 161 or permission of instructor.

ART 180 ART APPRECIATION.....5 (5-0-0)

A survey of ideas and stylistic trends from cave painting to modern times. Painting, sculpture and architecture of each major period will be discussed. The course is designed to meet state requirements for public school teachers and is open to the general college student.

ART 182 INTRODUCTION TO ART (AESTHETICS)..... 5 (5-0-0)

This is an art/humanities elective course dealing with philosophies of meaning in historical and contemporary art forms. The relationships between information and illumination and between intellect and imagination will be discussed in a seminar manner. Students will be responsible for researching and presenting information and participating in class discussions.

ART 253 INTRODUCTION TO PRINTMAKING.....3(0-6-0)

This course is designed for general college students with little or no experience in the field who wish to enroll in a course of a fairly specialized nature. A wide variety of print media is introduced through a series of lectures, demonstrations, and field trips. Studio work emphasizes relief printing techniques, etching, and silkscreen printing.

Prerequisite: ART 151 or permission of instructor.

ART 256 PAINTING I..... 3 (0-6-0)
Upon completion of this course, the student will be able to select tools and materials for painting and will be able to demonstrate a knowledge of the elements of art and the principles of design as they apply to the production of painting.

ART 257 PAINTING II..... 3 (0-6-0)
The student will continue the analysis and production of good pictorial composition and will continue experimentation in a variety of painting media. Prerequisite: ART 256 or permission of instructor.

ART 258 PAINTING III..... 3 (0-6-0)
The student will give special attention to painting as a means of personal expression and will continue to identify and solve the problems of pictorial production such as color, form, and special illusion. The student will continue technical experimentation. Prerequisite: ART 257 or permission of instructor.

ART 259 SCULPTURE I..... 3 (0-6-0)
In this course the student will experiment with a variety of materials by utilizing the constructive, the additive, and the subtractive processes of sculpture.

ART 260 SCULPTURE II..... 3 (0-6-0)
The student will continue to experiment with a variety of materials and methods of sculpture. There will be an emphasis on carving in wood and stone. Prerequisite: ART 259 or permission of instructor.

ART 261 SCULPTURE III..... 3 (0-6-0)
Sculpture III is an advanced studio course designed with the student in mind. Emphasis is on media, tools, process or on concept gained from experience and research. Statement or expressive quality of sculpture will be expressed. Prerequisite: ART 260 or permission of instructor.

ART 280 ANCIENT ART HISTORY.....5 (5-0-0)
An in-depth study of the evolution of art with specific emphasis on the art of Ancient Egypt and Ancient Greece. Painting, sculpture and architecture are discussed. Open to general college student.

ART 281 RENAISSANCE ART HISTORY..... 5 (5-0-0)
An in-depth study of the evolution of 15th and 16th Century art with emphasis on the art from Giette to Michaelangelo. Painting, sculpture and architecture are discussed.

ART 282 MODERN ART HISTORY.....5 (5-0-0)
An in-depth study of the evolution of Modern Art with emphasis on the period from J. 0. David to Andy Warhol. Painting, sculpture and architecture are discussed.

ART 283 COLOR THEORY..... 3 (0-6-0)
The student will continue the analysis and implementation of the principles and elements of design with an emphasis upon color theory.

ART 285 INDEPENDENT STUDIO..... 3 (0-6-0)
A course designed to permit the student to work beyond the limits of the regular sequence of courses in a particular area of art. As the course title indicates, the student will be working independently on self-determined objectives utilizing the resources of the Art Department. One independent studio may be taken per area. Prerequisite: Completed sequence of art courses in the area of proposed independent study.

ART 286 INDEPENDENT STUDIO..... 3 (0-6-0)

A course designed to permit the student to work beyond the limits of the regular sequence of courses in a particular area of art. As the course title indicates, the student will be working independently on self-determined objectives utilizing the resources of the Art Department. One independent studio may be taken per area. Prerequisite: Completed sequence of art courses in the area of proposed independent study.

ART 287 INDEPENDENT STUDIO..... 3 (0-6-0)

A course designed to permit the student to work beyond the limits of the regular sequence of courses in a particular area of art. As the course title indicates, the student will be working independently on self-determined objectives utilizing the resources of the Art Department. One independent studio may be taken per area. Prerequisite: Completed sequence of art courses in the area of proposed independent study.

AUTOMOTIVE MECHANICS

PME 151 AUTOMOTIVE FUNDAMENTALS FOR CONSUMERS..... 3 (3-0-0)

This course is designed to help you prolong the life of your automobile. The topics discussed include the following: the engine and companion systems, preventive maintenance, basic tune-up instructions, and trouble-shooting.

PME 1101 INTERNAL COMBUSTION ENGINE..... 4 (2-0-6)

Development of a thorough knowledge and ability in using, maintaining, and storing the various hand tools and measuring devices needed in engine repair work. Study of the construction and operation of components of internal combustion engines. Testing of engine performance; servicing and maintenance of pistons, valves, cams and camshafts, fuel and exhaust systems, cooling systems; proper lubrication; and methods of diagnosing and repairing. Development of ability to read and interpret blueprints, charts, instruction and service manuals, and wiring diagrams.

PME 1102 ENGINE IGNITION AND FUEL SYSTEMS..... 4 (2-0-6)

A thorough study of the electrical and fuel systems of the automobile. Battery cranking mechanism, generator, ignition, accessories and wiring; fuel pumps, carburetors, and fuel injectors. Characteristics of fuels, types of fuel systems, special tools, and testing equipment for the fuel and electrical system. Interpretation and reading of schematic prints and diagrams. Making sketches of electrical wiring and fuel system components for automotive engines and other internal combustion engines.

Prerequisite: PME 1101 or permission of instructor.

PME 1110 EMISSION CONTROL SYSTEMS..... 2 (1-0-3)

A study of operating principles which apply to control systems currently in use and emission control systems that effectively reduce the volume of air pollutants.

PME 1113 BRAKE SYSTEMS..... 2 (1-0-3)

A study of the principle of operation of modern drum and disc braking systems. Diagnosis, component replacement and total system overhaul are included.

PME 1120 AUTOMOTIVE ELECTRICAL SYSTEMS..... 2 (1-0-3)
The course will cover diagrams, sketches, charts, wiring codes, and symbols for automobiles. Analysis charts will be studied to troubleshoot electrical problems with wiring, and electronic devices on new model automobiles.

PME 1121 FRONT SUSPENSION, ALIGNMENT, AND POWER STEERING..... 2 (1-0-3)
Theory of operation, correct disassembly and mounting of all front suspension parts on various types of frames (car and light truck). A thorough understanding of the function and repair of steering gears (Power and standard), shock absorbers, springs, wheels and tires, pumps, rams, etc. is gained. Theory and application of steering geometry, correct diagnosis of problems and use of the alignment and balancing machines; analysis and correction of tire wearing problems, vibrations, hard steering, pulling, etc. is experienced.

PME 1124 AUTOMOTIVE POWER TRAIN SYSTEMS..... 2 (1-0-3)
Principles and functions of automotive power train systems: clutches, transmission gears, drive shaft assemblies, rear axles and differentials. Identification of troubles, servicing and repair.

PME 1125 AUTOMOTIVE SERVICING..... 4 (2-0-6)
Emphasis is on the shop procedures necessary in "troubleshooting" of automotive systems, provides a full range of experiences in testing, adjusting, repairing, and replacing components. A close simulation to an actual automotive shop situation will be maintained. Prerequisite: PME 1102

PME 1204 AUTO-DIESEL ENGINE SERVICING..... 4 (2-0-6)
A study of the auto and light truck diesel engines. Repair and replacement of common service problems pertaining to the engine will be emphasized greatly. Electronic computer controls will be covered that pertain to emission control devices as they become available on vehicles.

PME 1206 ELECTRONIC FUEL INJECTION SYSTEMS..... 6 (5-0-3)
A study of computer controlled fuel injection as it pertains to automobiles and light trucks. Several manufacturers' systems will be used as reference material, along with generic fuel injection trainers, similar to all basic systems. Both gasoline and diesel systems will be studied.
Prerequisite: PME 1120, PME 1110, PME 1102, EGR 1101.

PME 1221 ADVANCED ELECTRICAL SYSTEMS..... 2 (1-0-3)
Detailed study in theory and construction of electronic controlled charging and ignition systems. Prerequisite: PME 1120 or permission of instructor.

PME 1224 AUTOMATIC TRANSMISSIONS..... 5 (3-0-6)
This course is designed to provide a measure of depth in the understanding of automatic transmissions. Instruction includes classroom study, demonstrations, and student participation in disassembly, reassembly, and testing of selected transmissions. Special emphasis is placed on principles, function, construction, operation, servicing and "trouble-shooting" procedures and repair of various types.

PME 1232 FRONT END DRIVE TRAIN STEERING AND ALIGNMENT..... 2 (1-0-3)
Study of the new front-wheel drive train. Operation and repair of steering and alignment of rack and pinion system will be emphasized.
Corequisites PME 1113, PME 1121

BASIC LAW ENFORCEMENT

BLE 101 BASIC LAW ENFORCEMENT..... 24 (16-0-24)

See program description, which is the same as the course description. The course will contain 446 contact hours.

BIOLOGY

BIO 151 GENERAL BIOLOGY.....4 (3-3-0)

A study of the basic biological principles included in both animal and plant kingdoms. Emphasis is placed upon live, taxonomy, the cell, cell divisions, cellular metabolism, photosynthesis, nucleic acids, and genetics.

BIO 152 GENERAL BIOLOGY..... 4 (3-3-0)

A continuation of BIO 151. Included are a survey of the plant kingdom and ecological studies, including both plants and animals. Prerequisite:BIO151.

BIO 153 GENERAL BIOLOGY.....4 (3-3-0)

A continuation of general biology. Included are a survey of the animal kingdom and the structure and function of man as one of the animals. Prerequisite: BIO 151.

BIO 251 ANATOMY AND PHYSIOLOGY..... 4 (3-2-0)

A study of the anatomy and physiology of the human body with integration and homeostasis as leading factors. Emphasis is on the cell, tissues of the body, integumentary system, skeletal system, muscular system, and digestive system.

BIO 252 ANATOMY AND PHYSIOLOGY..... 4 (3-2-0)

A continuation of BIO 251. The systems covered are the circulatory, respiratory, excretory, and reproductive. Prerequisite: BIO 251.

BIO 253 ANATOMY AND PHYSIOLOGY..... 4 (3-2-0)

A continuation of BIO 252. The systems covered are the nervous, special senses, endocrine and immunological. Prerequisite: BIO 252.

BIO 255 MICROBIOLOGY.....5 (3-4-0)

Morphology, physiology, and methods of culture and control of bacteria, viruses, and related micro-organisms. The course includes pathogens and epidemiology of microbial diseases.

BUSINESS

BUS 122 RECORDS MANAGEMENT..... 3 (3-0-0)

A study of the fundamentals and theory of filing with special emphasis on alphabetic, geographic, subject, numeric, and other filing systems.

BUS 125 OFFICE PROCEDURES I..... 3 (3-0-0)

Efforts will be made to observe and direct students in developing those characteristics and personality traits which are essential in the modern business office. Training in office duties and procedures will be emphasized. Prerequisite: Ability to type or permission of instructor.

BUS 126 OFFICE PROCEDURES II.....3 (3-0-0)

A continuation of BUS 125. This course presents a series of integrated office activities which emphasize the administrative aspects of secretarial work. Prerequisite: BUS 125 or permission of instructor.

BUS 128 BUSINESS MATHEMATICS..... 4 (3-2-0)
A course designed to cover the mathematical understandings and skills needed to solve computational problems encountered in business. Instruction on the electronic calculator and its use in business math applications will be included.

BUS 130 PRINCIPLES OF INDUSTRIAL MANAGEMENT..... 5 (5-0-0)
The basic managerial decisions; organizational structure including plant location, building requirements, and internal factory organization and problems of factory operation and control, planning, scheduling, routing factory production, stores control, labor control, purchasing, and cost control. Plant problems are utilized at lab experiments.

BUS 134 PRINCIPLES OF SUPERVISION..... 3 (3-0-0)
Introduces the basic responsibilities and duties of the supervisor and the relationship to superiors, subordinates and associates. Emphasis on securing an effective work force and the role of the supervisor. Methods of supervision are stressed.

BUS 136 PROFESSIONAL DEVELOPMENT..... 3 (3-0-0)
A study of the principles that will be of assistance in the understanding of inter-personal relations on the job. Motivation, feelings, and emotions are considered with particular reference to on-the-job problems.

BUS 150 BUSINESS LAW..... 3 (3-0-0)
A general course designed to acquaint the student with the subject of Business Law and to examine fully the subject of contracts.

BUS 151 BUSINESS LAW..... 3 (3-0-0)
A continuation of Business 150. Topics include the sale of goods, commercial paper, insurance, estate planning, court procedures, agency, and employment. Prerequisite: BUS 150 or permission of instructor.

BUS 152 INTRODUCTION TO BUSINESS.....5 (5-0-0)
An introduction to the various areas of business available for concentrated investigation. The business environment, ownership forms, organization, marketing, and the physical factors of the business are examined. Also, personnel, stocks, bonds, insurance, accounting, business statistics, budgets, forecasting, and the legal environment of business are surveyed.

BUS 153 TYPEWRITING..... 3 (1-4-0)
Development of basic typewriting skills and principles and their application- with emphasis on speed and accuracy.

BUS 154 TYPEWRITING..... 3 (1-4-0)
A continuation of Business 153, with emphasis on outlines, letter styles, and typing from draft copy. Prerequisites: BUS 153 or permission of instructor.

BUS 155 TYPEWRITING..... 3 (1-4-0)
A continuation of Business 154 which builds on the basic competency in keyboarding and formatting of business forms with emphasis on speed and accuracy. Prerequisite: BUS 154 or permission of the instructor.

BUS 156 SHORTHAND..... 4 (3-2-0)
Mastery of the fundamentals of Gregg Shorthand theory and speed building. Prerequisite: Ability to type or permission of instructor.

BUS 157 SHORTHAND.....4 (3-2-0)
A continuation of the study of Gregg Shorthand theory and development of dictation and transcription skills. Prerequisite: BUS 156 or permission of

instructor.

BUS 158 SHORTHAND.....4 (3-2-0)
Development and application of the principles of Gregg Shorthand theory, with emphasis on accuracy and speed. Prerequisite: BUS 157 or permission of instructor.

BUS 161 ACCOUNTING PRINCIPLES..... 4 (3-2-0)
The first quarter of accounting builds the basic foundation for further study. Topics included are the basic accounting structure, journals, ledgers, the completion of the cycle for a service and mercantile enterprise, receivables, payables, inventory methods, deferrals, accruals, practical problems and case studies.

BUS 162 ACCOUNTING PRINCIPLES.....4 (3-2-0)
A continuation of BUS 161. Items covered are plant and intangible assets, internal control, payroll systems, concepts and principles, partnership, corporations, departments, branches, practical problems, and case studies. Prerequisite: BUS 161 or permission of instructor.

BUS 163 ACCOUNTING PRINCIPLES..... 4 (3-2-0)
A continuation of BUS 162. Topics are an introduction to cost accounting, budgetary control, income taxes, management concern for cost and revenue relationships, special analysis, special statements, practical problems and case studies. Prerequisite: BUS 162 or permission of the instructor.

BUS 200 ACCOUNTING ON MICROCOMPUTERS..... 4 (3-2-0)
A study of the application of General Ledger, Accounts Receivable, Accounts Payable, Payroll and Depreciation Systems on a microcomputer. No prior computer knowledge is required. Prerequisite: BUS 163 or permission of instructor.

BUS 201 TYPEWRITING.....3 (1-4-0)
An expansion of the development of typewriting principles and skills and their application with emphasis on speed and accuracy.
Prerequisite: One year of typewriting or permission of instructor.

BUS 202 TYPEWRITING.....3 (1-4-0)
Business letter styles, legal papers, tabulation, business and accounting reports, manuscripts, and forms applicable to the business office are emphasized. Prerequisite: BUS 201 or permission of instructor.

BUS 203 TYPEWRITING.....3 (1-4-0)
Development of sustained production of forms used in the business office. Prerequisite: BUS 202 or permission of instructor.

BUS 211 SHORTHAND AND TRANSCRIPTION.....4 (3-2-0)
A review of Gregg Shorthand theory and the principles of English grammar with emphasis on the student's ability to take and transcribe correctly from familiar and unfamiliar dictation at varying rates of speed.
Prerequisite: BUS 158 or permission of instructor.

BUS 215 MACHINE TRANSCRIPTION.....4 (3-2-0)
A course designed to develop proficiency in office work which requires the use of transcribing units. The concepts of word processing are taught, and experience on the electronic typewriter is received. Prerequisite: Ability to type 50 words per minute or permission of the instructor.

BUS 220 BUSINESS COMMUNICATIONS.....3 (3-0-0)
The study and the composition of business letters and other forms of commu-

nication. Prerequisite: Ability to type or permission of instructor.

BUS 223 PRINCIPLES OF SELLING.....3 (3-0-0)
A study of the fundamentals of effective selling, qualifications and obligations of sales persons.

BUS 224 BUSINESS MANAGEMENT.....5 (5-0-0)
Principles of business management including overview of major functions of management, such as planning, staffing, controlling, and financing. Clarification of the decision-making function versus the operating function. Role of management in business-qualifications and requirements.

BUS 225 PRINCIPLES OF MARKETING..... 5 (5-0-0)
A survey of the functions and problems involved with getting products moved from the producer to the consumer.

BUS 228 CONSUMER FINANCE..... 3 (3-0-0)
This course is oriented toward personal financing as opposed to financing the business entity. Topics include budgets, insurance, credit procedures, personal investments, housing, real estate, retirement planning, and estate planning.

BUS 229 BUSINESS FINANCE..... 3 (3-0-0)
Financing of business units, as individuals, partnerships, corporations, and trusts. Topics include short-term financing, long-term financing, financing federal, state, and local government and the factors affecting supply of funds, monetary and credit policies.

BUS 234 PERSONNEL MANAGEMENT.....3 (3-0-0)
Principles of organization and management of personnel, procurement, placement, testing, performance checking, supervision, remuneration, labor relations, fringe benefits, and security.

BUS 238 BUSINESS INSURANCE.....5 (5-0-0)
This course is an approach to the study of the principles of risk, risk management, and insuring techniques in the context of the managerial decision-making process. Topics include risk and the nature of insuring devices, life, health, retirement, property, and liability insuring devices; planning and integrating risk treatment programs, and insuring organizations and their functions.

BUS 241 INTERMEDIATE ACCOUNTING.....4 (3-2-0)
A review and expansion of accounting principles which includes, among other aspects, the balance sheet, income statement, earnings statement, fundamental processes of recording, cash and temporary investments, and analysis of working capital. Prerequisite: BUS 163 or permission of instructor.

BUS 242 INTERMEDIATE ACCOUNTING..... 4 (3-2-0)
Additional study of intermediate accounting with emphasis on current liabilities, investments, plant and equipment, intangibles, and long-term liabilities. Prerequisite: BUS 241.

BUS 243 INTERMEDIATE ACCOUNTING..... 4 (3-2-0)
A continuation of BUS 242 which includes study of paid-in capital upon corporate formation and subsequent to corporate formation, all aspects of retained earnings and the retained earnings statement, statements from incomplete records, errors, and financial statement analysis. Pre-Requisite: BUS 242

BUS 244 COST ACCOUNTING.....4 (3-2-0)

A study of the nature and purposes of cost accounting for direct labor, materials, and overhead; job cost, standard cost and principles and procedures; selling and distribution cost, budgets, and executive use of cost figures. Prerequisite: BUS 163 or permission of instructor.

BUS 246 TAXES 4 (3-2-0)

A study of the application of federal and state taxes to various businesses and business conditions, income taxes, payroll taxes, intangible taxes, capital gain taxes, sales and use taxes, excise taxes, and inheritance taxes. Prerequisite: BUS 161 or permission of instructor.

BUS 248 AUDITING..... 4 (3-2-0)

A study of conducting audits and investigations, setting up accounts based on audits, collecting data on working papers, arranging and systematizing the audit, and writing the audit report. Emphasis on detailed audits, internal auditing, and internal control. Prerequisite: BUS 163 or permission of instructor.

BUS 1103 SMALL BUSINESS OPERATIONS..... 3 (3-0-0)

An introduction to the business world, problems of small business operation, basic business law, business forms and records, financial problems, ordering and inventorying, layout of equipment and offices, methods of improving business, and employer-employee relations.

CHEMISTRY

CHM 161 GENERAL CHEMISTRY.....4 (3-3-0)

A course designed to introduce a student to the fundamental concepts of chemistry. Topics of study include chemical symbols, formulas, atomic structure, periodic law, chemical bonding, the gaseous state, the kinetic molecular theory and chemical calculations.

CHM 162 GENERAL CHEMISTRY..... 4 (3-3-0)

A continuation of CHM 161. Emphasis to be placed on the liquid and solid states, solutions, electrolytes, colloids, oxidation-reduction reactions, and chemical equilibrium. Prerequisite: CHM 161.

CHM 163 GENERAL CHEMISTRY..... 4 (3-3-0)

A continuation of CHM 162. Emphasis to be placed on the study of thermodynamics, electrochemistry, solubility product principle, hydrolysis, with an introduction to nuclear chemistry, biochemistry, and organic chemistry. Laboratory will include semimicro qualitative analysis. Prerequisite: CHM 162.

CHM 164 PHYSIOLOGICAL CHEMISTRY.....4 (3-3-0)

A course structured to provide an understanding of the scope, aims, and fundamentals of modern chemistry by presenting facts, theories, and principles of the science. The course will serve as the basic chemistry course for student nurses.

COOPERATIVE EDUCATION

COE COOPERATIVE EDUCATION INTERNSHIP 1, 2, 3, or 4..
(0-10, 20, 30, 40, 0)

Cooperative Education work experiences enable students to work in positions related to their programs of study and/or career interest and for employers selected and/or approved by the institution. Students are supervised periodi-

cally by faculty or staff members from the College. Credit hours are determined by dividing the average number of hours worked per week, during an eleven-week quarter, by 10, and rounding to the nearest whole number. Contact hours are determined by multiplying the number of hours worked per week by .5. A maximum of eight credit hours toward degree or diploma requirements may be earned. Prerequisite: One quarter as a full-time student at Mitchell Community College or permission of the Cooperative Education Program Coordinator.

COSMETOLOGY

COS 1001 SCIENTIFIC STUDY I..... 10 (5-0-15)
COS 1001A (Part-time) 4 (2-0-6)
COS 1001B (Part-time) 6 (3-0-9)

This course is for beginners in Cosmetology. It includes a study of hygiene and good grooming, visual poise, personality development, professional ethics, bacteriology, sterilization and sanitation, draping, shampooing and rinsing, scalp and hair care, cosmetology law, anatomy, chemistry, nails and disorders of the nail, manicuring, skin and disorders of the skin, scalp and hair.

COS 1011 MANNEQUIN PRACTICE..... 5 (0-0-17)
COS 1011A (Part-time) 3 (0-0-9)
COS 1011B (Part-time) 2 (0-0-8)

A study of finger waving, hair styling and hair shaping. The care and styling of wigs, permanent waving, hair coloring, chemical hair relaxing and chemical blowout, draping, shampooing and rinses, scalp, and hair care, and manicuring-

COS 1002 SCIENTIFIC STUDY II..... 5 (5-0-0)
COS 1002A (Part-time) 2 (2-0-0)
COS 1002B (Part-time) 3 (3-0-0)

This course is for advanced students in Cosmetology. It includes a study of hair shaping, finger waving, hairstyling, the care and styling of wigs, permanent waving, hair coloring, chemical hair relaxing and chemical blowout, and thermal hair straightening.

COS 1022 CLINICAL APPLICATIONS I..... 10 (0-0-32)
COS 1022A (Part-time) 5 (0-0-15)
COS 1022B (Part-time) 5 (0-0-17)

A study of live model performance. The purpose of this course is to develop skills and to understand techniques. Laboratory practice in the areas of professional ethics, sterilization and sanitation, draping, shampooing and rinsing, scalp and hair care, hair shaping, finger waving, hairstyling, the care and styling of wigs, permanent waving, and hair coloring.

COS 1003 SCIENTIFIC STUDY III..... 5 (5-0-0)
COS 1003A (Part-time) 2 (2-0-0)
COS 1003B (Part-time) 3 (3-0-0)

The course gives classroom study in thermal waving, curling, and blow-dry styling, theory of massage, facials, facial make-up, false eyelashes, and superfluous hair removal.

COS 1033 CLINICAL APPLICATIONS II..... 10 (0-0-32)
COS 1033A (Part-time) 5 (0-0-15)
COS 1033B (Part-time) 5 (0-0-17)

A continued study of laboratory practices, chemical hair relaxing and chemical blowout, thermal hair straightening, thermal waving, curling, blow-dry styling, manicuring chemistry, facials, and facial make-up.

COS 1004 SCIENTIFIC STUDY IV.....5 (5-0-0)
COS 1004A (Part-time) 2 (2-0-0)
COS 1004B (Part-time) 3 (3-0-0)

The course gives classroom study in cells, skin, hair, scalp disorders, salon management, and cosmetology law.

COS 1044 CLINICAL APPLICATIONS III.....10 (0-0-32)
COS 1044A (Part-time) 5 (0-0-15)
COS 1044B (Part-time) 5 (0-0-17)

A continued study of laboratory practice in permanent waving, hair-styling, hair shaping, sanitation and sterilization.

CRIMINAL JUSTICE-PROTECTIVE SERVICE TECHNOLOGY

CJC 101 INTRODUCTION TO CRIMINAL JUSTICE.....5 (5-0-0)

This course is designed to familiarize the student with a philosophy and history of law enforcement, its legal limitations in our society, the primary duties and responsibilities of the various agencies in the criminal justice field, the basic processes of justices, and evaluation of law enforcement's current position, and an orientation relative to the profession as a career.

CJC 102 CRIMINOLOGY.....5 (5-0-0)

A general course designed to introduce the student to the causation of crime and delinquency. The historical and contemporary aspects of crime, law enforcement, punishment, and correctional administration will be discussed.

CJC 110 JUVENILE DELINQUENCY.....5 (5-0-0)

General survey of juvenile delinquency as an individual and social problem, theories of delinquency, causation, and methods of correction and prevention. The course will present a general overview of the juvenile court.

CJC 112 CRIMINAL LAW.....5 (5-0-0)

A course designed to present a basic concept of criminal laws and to provide a legal groundwork for those who seek to enter the Criminal Justice field.

CJC 125 CRIMINAL PROCEDURE.....5 (5-0-0)

This course is designed to provide the student with a review of court systems; procedures from incident to final disposition; principles of constitutional, federal, state, and civil laws as they apply to and affect law enforcement.

CJC 202 TRAFFIC ENFORCEMENT.....5 (5-0-0)

A study which covers the history of the traffic enforcement problems and gives an overview of the problem as it exists today. Attention will be given to the three E's (enforcement, evaluation, effectiveness) and legislation, the organization of the traffic unit, the responsibilities to the traffic function of the various units within the law enforcement agency, enforcement tactics, evaluation of the traffic program effectiveness and the allocation of men and materials. Accident investigation is stressed.

CJC 203 CORRECTIONS.....3 (3-0-0)

An examination of the total correctional process from law enforcement through the administration of justice, probation, prisons and correctional institutions, probation and aftercare for both the adult and juvenile. This course will provide a history and philosophy in the field of corrections.

CJC 204 PAROLES, PROBATION, AND PARDONS..... 3 (3-0-0)

Probation as a judicial process and parole as an executive function are examined as community-based correctional programs and the use of pardons is reviewed.

CJC 205 CRIMINAL EVIDENCE..... 5 (5-0-0)

Instruction covers the kinds and degrees of evidence and the rules governing the admissibility of evidence in court.

CJC 206 COMMUNITY RELATIONS..... 3 (3-0-0)

This course will provide the student with an understanding of community structures as they relate to minority groups, peer groups, socioeconomic groups, leader groups, and group relations. Emphasis will be placed on the organization and function of these groups as they relate to the profession of criminal justice-protective service.

CJC 207 CONFINEMENT FACILITIES ADMINISTRATION.....3 (3-0-0)

This course is designed to familiarize the student with the supervision and administration of confinement facilities for both adult and juvenile, involving techniques of inmate supervision, security, medical care of inmates, food preparation, sanitation, and various legal aspects controlling detention facilities, correctional facilities and jails.

CJC 209 CORRECTION LAW..... 3 (3-0-0)

This course is designed to familiarize the student with the specific laws as they pertain to correction, care, custody and control.

CJC 210 CRIMINAL INVESTIGATION..... 5 (4-2-0)

This course introduces the student to fundamentals of investigation; crime scene search; recording, collection, and preservation of evidence; sources of information, interview and interrogation, case preparation, and court presentation.

CJC 211 CRIMINALISTICS I..... 5 (4-2-0)

A course designed to introduce the student to the forensic aspects of police science and the crime lab, its function and scope. The student is further introduced to lab equipment generally found in use in a police crime lab. In addition, the course studies physical and chemical properties of certain substances, chemical changes, weights and measurements, and organic analysis and inorganic analysis.

CJC 212 CRIMINALISTICS II..... 5 (4-2-0)

A continuation of the forensic aspects of police science. The subject matter concentrates on the procedures to be undertaken in the crime lab. Emphasis is placed on fulfilling all legal requirements regarding handling and evaluation of physical evidence. All students participate in a crime scene and the investigation of all evidence pertaining to the crime.

CJC 218 PATROL PROCEDURE..... 3 (3-0-0)

This course defines the purposes of patrols and describes the types of patrols. It explains the operation of police vehicles on patrol, answering calls-emergency and non-emergency and felony in progress. It provides the student the opportunity to develop powers of perception, and observation concerning persons, places, and things. Safe driving techniques and use of equipment are presented.

CJC 222 CRIMINAL JUSTICE ADMINISTRATION..... 3 (3-0-0)
This course will be an introduction to the principles of organization and administration. The major objective will be to provide the student with a background for understanding basic administration.

CJC 223 CORRECTIONS COUNSELING..... 4 (3-2-0)
This course is designed to provide the student with information pertaining to counseling techniques as they apply to the needs of a correctional officer or counselor. An exploration of the different avenues of rehabilitation will occur.

CJC 230 COUNSELING..... 3 (3-0-0)
This course is designed to present the basic elements of counseling. The basic elements will be applied to the different socioeconomic groups in our society.

CJC 234 COMMUNITY-BASED CORRECTION..... 3 (3-0-0)
Community resources that can be utilized in the correctional process are examined such as vocational rehabilitation, alcohol detoxification and other units, welfare services, child guidance and mental health clinics, employment services, private volunteer, professional assistance, legal aid, and other pertinent services. Adult as well as juvenile programs will be examined.

CJC 240 CONSTITUTIONAL LAW..... 3 (3-0-0)
An in-depth study of selected constitutional law. Emphasis will be placed in the following areas: due process clause of the 14th Amendment, equal protection clause of the 14th Amendment, 1st Amendment rights and rights of privacy.

CJC 241 ALCOHOL AND DRUG ADDICTION AND TREATMENT..... 5 (5-0-0)
A study of the socio-cultural, psychological, and physiological contributions to alcohol and drug addiction. An analysis of the theories of addiction; analysis, philosophies and modalities of treatment including family, individual, and group counseling, vocational rehabilitation, detoxification processes, etc. Analysis of self help treatment philosophies. Study of intervention concepts and strategies; contemporary treatment of addiction.

CJC 242 ALCOHOL AND DRUG ABUSE PREVENTION 3 (3-0-0)
An analysis of the various issues related to the prevention of alcohol and drug abuse as a community health problem. Critical evaluation of various methods and philosophies of prevention. Includes early and secondary prevention models including employee assistance programs. Barriers to prevention programs will be examined.

DRAFTING

DFT 101 TECHNICAL DRAFTING I..... 4 (2-0-6)
The field of drafting is introduced as the student studies the basic principles of the graphic language. Skills are developed in freehand lettering, geometric figure construction, orthographic and pictorial freehand, and instrument drawing of the principle views of objects as they are represented in the graphic language. Principles of size description are also introduced.
Prerequisite: None.

DFT 102 TECHNICAL DRAFTING II..... 4 (2-0-6)
This course includes the application of orthographic projection principles to the more complex drafting problems, primary and secondary auxiliary views, and the introduction to sections and conventions. Dimensioning practices for

details and working drawings as approved by the American Standards Association are covered. Prerequisite: DFT 101.

DFT 103 TECHNICAL DRAFTING III.....4 (2-0-6)
This course is a study of the various techniques employed to produce and render isometric and oblique drawings and isometric, dimetric, and trimetric projections. An introduction to screw threads and various fasteners is included. Prerequisite: DFT 102.

DFT 113 ELECTRONIC DRAFTING..... 4 (1-6-0)
The fundamentals of drafting are presented with an emphasis on applications in the electronics field. Basic skills and techniques are included such as the use of drafting instruments, types of drawings, construction of drawings both with instruments and freehand, lettering and dimensioning, and how to read prints. In addition to basic skills, specialized experience will be included which directly relates to the electronics industry, such as types of drawings common to electronics, special symbols used, schematic diagrams and layout diagrams with an emphasis on printed circuit work.

DFT 120 CAD DRAFTING I.....4 (2-0-6)
An introduction to computer aided drafting (CAD). Basic keyboarding and computer functions as they pertain to CAD/CAM operations. Hands-on familiarization with MS-DOS functions will be employed by students, preparing them for commands needed in CAD/CAM courses.
Prerequisites: DFT 101.

DFT 121 CAD DRAFTING II..... 4 (2-0-6)
A continuation of DFT 120. In this course, the student uses skills to produce more complex two dimensional drawings. The more advanced commands are introduced to increase productivity and enhance the appearance of the drawings. Three dimensional drawings are introduced.
Prerequisite: DFT 120.

DFT 122 CAD DRAFTING Ill..... 4 (2-0-6)
In this course, more advanced practice in three dimensional drawings is implemented. Comparisons and practices on various CAD programs will also be implemented. Speed and accuracy on all CAD programs will be emphasized. Prerequisite: DFT 121.

DFT 123 CAD DRAFTING IV..... 4 (2-0-6)
In this course, students incorporate all previous CAD courses in designing, layout, detailing from layouts, making production drawings, and specifying materials. Prerequisite: DFT 122.

DFT 201 TECHNICAL DRAFTING IV.....4 (2-0-6)
Mathematical, drafting board, and computer-aided-drafting solutions of problems involving the principles of machine elements. Study of motion linkages, velocities and acceleration of points within a link mechanism; layout methods for designing cams, belts, pulleys, gears and gear trains.
Prerequisite: MAT 161, PHY 101, and DFT 103.

DFT 202 TECHNICAL DRAFTING V..... 4 (2-0-6)
Assignment of mechanical design projects requiring use of research; application of basic engineering principles; calculations; and use of various manuals, catalogs, and periodicals. Preliminary design sketches, layout drawings, detail drawings, subassembly drawings, assembly drawings, specifications, patent drawings and simplified drawing practices will be required. Solutions

will be by both drafting board and computer-aided-drafting procedures. Prerequisite: DFT 201.

DFT 203 TECHNICAL DRAFTING VI..... 4 (2-0-6)
Emphasis is placed on tool planning, design and drafting; commercial standards, principles and practices; selection of materials and standard parts; use of catalogs and manuals; and cost estimates. Projects are assigned requiring the design of jigs, fixtures, and gauges by both drafting board and computer-aided-drafting procedures. Prerequisite: DFT 202.

DFT 204 DESCRIPTIVE GEOMETRY..... 4 (2-0-6)
This course consists of a graphic analysis of space problems involving points, lines planes, connectors and a combination of these. Practical design problems will be stressed with analytical verification where applicable. Visualization will be stressed on every problem. Prerequisites: DFT 102, MAT 162.

DFT 1110 BLUEPRINT READING: BUILDING TRADES 2 (1-0-3)
Principles of interpreting blueprints and specifications common to the building trades. Development of proficiency in making three view and pictorial sketches.

DFT 1113 BLUEPRINT READING: ELECTRICAL.....1 (0-0-3)
Interpretation of schematics, diagrams and blueprints applicable to electrical installations with emphasis on electrical plans for domestic and commercial buildings. Sketching schematics, diagrams, and electrical plans for electrical installations using appropriate symbols and notes according to the applicable codes will be a part of this course. Prerequisite: DFT 1110 or DFT 1104 or permission of instructor.

DFT 1117 BLUEPRINT READING: WELDING..... 3 (3-0-0)
A thorough study of trade drawings in which welding procedures are indicated. Interpretation, use and application of welding symbols, abbreviations, and specifications.

DFT 1118 PATTERN DEVELOPMENT AND SKETCHING 2 (1-0-3)
Continued study of welding symbols; methods used in layout of sheet steel; sketching of projects, jigs and holding devices involved in welding. Special emphasis is placed on developing pipe and angle layouts by the use of patterns and templates. Prerequisite: DFT 1117.

ECONOMICS

ECO 232 LABOR ECONOMICS AND LABOR RELATIONS..... 5 (5-0-0)
Emphasis is placed on the history of the labor movement in the United States; the development of methods and strategies by labor organizations and by management; the shift in the means of public control; and the factors of income and economic security.

ECO 251 MACROECONOMICS..... 5 (5-0-0)
The economic analysis of the economy as a whole. It includes such areas of study as total employment, total production, the business cycle, the general price level, and measures used to stabilize the level of business activity.

ECO 252 MICROECONOMICS.....5 (5-0-0)
The economic analysis of the problems of individuals, firms, and industries. It includes such areas as price determination, forces of supply and demand, competition, monopoly, and profit maximization.
Prerequisite: ECO 251 or permission of the instructor.

ELECTRICITY

ELC 111 INTRODUCTION TO ELECTRICITY..... 4 (3-2-0)

Principles of electricity are covered along with electrical equipment commonly used in industrial situations. Study includes resistance networks, AC/DC meters, and AC/DC applications circuits.

ELC 112 ELECTRICAL FUNDAMENTALS I..... 6 (4-4-0)

A qualitative study of units of measurement, electrical quantities, simple circuits, electromotive forces, current power, laws, basic electrical instruments and measurements, resistance, impedance and basic circuit components. Concepts taught are generally limited to fundamentals with very little emphasis placed on quantitative aspects. Laboratory work will teach the proper use and care of basic hand tools and the basic manual skills used in working with electricity. Measurement techniques and safety practices will be stressed throughout.

ELC 113 ELECTRICAL FUNDAMENTALS 11..... 6 (4-4-0)

A continuation of ELC 112. Introduction to magnetism, alternating current theory, sine wave analysis, inductance, capacitance, reactance, phase relationships, power and transformers. Prerequisite: ELC 112.

ELC 222 SOLID STATE CONTROLS..... 4 (3-3-0)

Introduction to static switching circuits and controls. Boolean algebra, static switching applications involving logic components, and design of control circuits. Dynamic controls involving solid state devices such as the transistor, integrated circuit, and digital readout. Minicomputers and their relationship to the control of machines and manufacturing processes will be studied.

ELC 1103 AC & DC MACHINES..... 6 (4-4-0)

Provide fundamental concepts in single and polyphase alternating current, direct current, circuits, voltages, power measurements, transformers and motors. Instructions in the use of electric test instruments in circuit analysis. Prerequisite: ELC 112 , ELC 113 or permission of instructor.

ELC 1104 AC & DC MACHINE CONTROLS..... 6 (4-4-0)

An introduction to the types of controls used in AC & DC Machines such as timers, relays, limit switches, push buttons, magnetic starters, sequencing switching, and the use of test instruments. Prerequisite: ELC 112, 113 or permission of instructor

ELC 1115 ELECTRICAL MATHEMATICS..... 5 (5-0-0)

An introductory algebra course with vectors needed in alternating current. Algebraic operations of addition, subtraction, multiplication, and division; use of letters and signs, grouping, factoring, exponents, ratios, algebraic and graphic solutions of equations, introduction to graphs, right triangles and vectors.

ELC 1124 RESIDENTIAL WIRING..... 8 (6-0-6)

Provides instruction and application in the fundamentals of blueprint reading, planning, layout, and installation of wiring in residential applications such as services, switchboards, lighting, fusing, wire sizes, branch circuits, conduits, National Electrical Code regulations in actual building mock-ups.

ELC 1125 COMMERCIAL AND INDUSTRIAL WIRING..... 8 (6-0-6)

Layout, planning, and installation of wiring systems in commercial and industrial complexes, with emphasis upon blueprint reading and symbols, the related National Electrical Codes, and the application of the fundamentals to

practical experience in wiring, conduit preparation, and installation of simple systems. Prerequisite: ELC 1124 or permission of instructor.

ELECTRONIC DATA PROCESSING

CAS 164 DESKTOP PUBLISHING.....3 (3-0-0)

This course is a hands-on course for students who are using a desktop publishing software package on the personal computer for the first time. Operational concepts of basic layout and graphic design techniques, printing terminology, typography, composition, article placement, and effective styles will be covered. Prerequisite: Typing ability of 30 words per minute or permission of the instructor.

EDP 103 UTILITIES.....3 (3-0-0)

An introduction to computer operational software. The student will be familiarized with the basic components and procedures of using an interactive system. Editor use and file copy will be given major emphasis.
Prerequisite: EDP 151, or permission of the instructor.

EDP 107 RPG 5 (4-2-0)

An introduction to RPG programming. The student will obtain experience in the use of the RPG computer language for coding business computer applications. Prerequisite: EDP 15 1, or permission of the instructor.

EDP 108 ADVANCED RPG..... 5 (4-2-0)

A continuation of EDP 107 which includes an intensive study in coding and programming of the RPG computer language. Prerequisite: EDP 107 or permission of instructor.

EDP 130 IBM PC DOS..... 1 (1-0-0)

This course is an introduction to the IBM PC and its operation. The student will prepare disks for use, copy files, and perform everyday operations with the most frequently used functions of the personal computer.

EDP 131 KEYBOARDING ON THE IBM PC..... 1 (1-0-0)

This course is a basic introduction to the alpha-numeric keyboard and a 10-key numeric pad, with emphasis on the touch system for the numeric keypad. Special keys which are unique to the IBM PC will also be discussed.

EDP 151 INTRODUCTION TO DATA PROCESSING.....5 (5-0-0)

An introductory course designed to acquaint students with the overall field of data processing. It includes a historical review of data processing, basic terminology, fundamental concepts of data processing, job opportunities and requirements in the D.P. field. The laboratory exercises are devoted to familiarizing students with the basic data processing equipment. This course is designed for students majoring in areas other than data processing as well as data processing majors.

EDP 158 INTRODUCTION TO THE IBM PC WITH BASIC PROGRAMMING..... 4 (3-2-0)

This course familiarizes students with the IBM PC system hardware and its operation, and introduces them to the Personal Computers Disk Operating System (PC DOS). BASIC programming will be studied for a fundamental understanding and appreciation of the terminology. Students will enter and run from the keyboard limited programs of their own design as well as programs given to them. Prerequisite: BUS 153 or permission of instructor.

EDP 160 ADVANCED BASIC.....3 (2-2-0)

A continuation of the BASIC language concepts learned in EDP 155 or EDP 158, using advanced concepts through color and file processing. Additional techniques will be stressed. Prerequisite: EDP 155, EDP 158, or permission of instructor.

EDP 161 WORDPROCESSING ON THE PERSONAL COMPUTER..... 3 (3-0-0)

This course is a hands-on course for students who are using word processing on the personal computer for the first time. Hands-on operational concepts of using a word processing package will be introduced (document creation, changes, deletion, saving and printing). Prerequisite: Typing ability of 30 words per minute or permission of the instructor.

EDP 162 SPREADSHEET PROCESSING ON THE PERSONAL COMPUTER..... 3 (3-0-0)

This course is a hands-on course for students who are using spreadsheets on the personal computer for the first time. Hands-on operational concepts of using a spreadsheet package will be introduced. The student will also cover changes to a spreadsheet, saving, deletion and printing of the spreadsheet. Graphics creation and printing will also be covered. Prerequisite: Typing ability of 30 words per minute or permission of the instructor.

EDP 163 DATABASE PROCESSING ON THE PERSONAL COMPUTER..... 3 (3-0-0)

This course is a hands-on course for students who are using a database on the personal computer for the first time. Hands-on operational concepts of using a database package will be introduced. The creation of a database, making additions to a database, deletion, saving and report creation will be covered. Prerequisite: Typing ability of 30 words per minute or permission of the instructor.

EDP 203 SYSTEMS ANALYSIS & DESIGN..... 3 (3-0-0)

A course in business systems analysis and design covering its scope, methods, and type of investigation, feasibility study, justifications for design of input, design of output, and storage of files. Prerequisites: EDP 107 or EDP 207 or permission of instructor.

EDP 207 COBOL..... 5 (4-2-0)

This course is intended to introduce the student to programming computers for commercial and business applications using the COBOL language. The student will obtain experience in solving practical problems using this language. Prerequisites: EDP 151 and EDP 103 or permission of instructor.

EDP 208 ADVANCED COBOL..... 5 (4-2-0)

A continuation of EDP 207 which includes an intensive study in coding and programming complex business applications using the COBOL language. Prerequisites: EDP 207 or permission of instructor.

EDP 210 FINAL PROJECT..... 5 (2-6-0)

The student will select and design a computerized system and its resulting computer program utilizing the RPG or COBOL languages. Prerequisites: EDP 108, EDP 203, EDP 208 or permission of instructor.

ELECTRONICS

ELN 121 ELECTRONICS I..... 5 (3-4-0)

A study of semiconductor fundamentals to include theory of operation and electrical characteristics of numerous semiconductor devices. Specific devices will include semiconductor signal and power diodes, zener diodes, tunnel diodes, varactor diodes, bipolar transistors, field effect transistors, thyristors, integrated circuits and optoelectronic devices. Prerequisite: ELC 112.

ELN 122 ELECTRONICS II.....7 (4-6-0)

A continuation of Electronics I with special emphasis on the construction of amplifier circuits, circuit configurations, electrical characteristics and amplifier design procedure. Specific types of circuits will include: basic amplifiers, operational amplifiers, power supplies, oscillators, pulse circuits and modulation systems. Prerequisite: ELN 121.

ELN 123 ELECTRONICS III..... 6 (4-4-0)

A continuation of Electronics II centering around the operational amplifier and its many uses. Circuits to be studied include intergrators, differentiators, precision rectifiers, and Schmidt Triggers. Prerequisite: ELN 122 or permission of instructor.

ELN 202 ELECTRONIC COMMUNICATIONS SYSTEMS 7 (5-4-0)

A study of electronic communications systems to include: AM SSB, and FM transmitters and receivers. Specific areas of study will include: amplitude modulation techniques, frequency modulation, antennas, communications test equipment, and broadcast station requirements. Prerequisite: ELN 122.

ELN 203 MICROPROCESSORS.....7 (4-6-0)

A study of microprocessors and microcomputers. Topics covered include: microcomputer basics, number systems and codes, computer arithmetic, introduction to programming, operation of microprocessors, and interfacing techniques. Prerequisite: ELN 219.

ELN 208 INDUSTRIAL ELECTRONICS..... 6 (5-2-0)

A study of industrial electrical control systems to include starting, stopping, reversing, and speed control for electrical motors. Industrial electronic switching components to include SCR'S, UJT'S, diacs, relays, and gate controlled circuitry will be covered. Also, transducers to include photocells, temperature sensing devices, pressure gauges, etc. Open and closed loop systems will be considered as well as numerical control. Prerequisite: ELN 122.

ELN 219 DIGITAL FUNDAMENTALS.....5 (3-4-0)

Emphasizes the study of combinational and sequential logic circuits using discrete and integrated components. Topics include: binary arithmetic, numbering systems, Boolean algebra, storing, timing, gating, and counting. Typical applications in industry will be presented.

ELN 220 ELECTRONIC SYSTEMS..... 6 (4-4-0)

The course consists of a functional block diagram analysis of a number of digital computer systems. Emphasis is placed on the mini-micro computer variety currently being used in industry. The lab will provide practice in manipulating the hardware and software associated with such computers. Prerequisite: ELN 203

ELN 229 DIGITAL CIRCUITS..... 6 (4-4-0)

A continuing study of complete logic circuits with an introduction to the principles on which microprocessors are based. The course will emphasize

counters, registers, memory, tristate logic, and bus structures (serial and parallel architecture.) Prerequisites: ELN 219 or permission of instructor.

ELN 246 ELECTRONICS DESIGN PROJECT..... 3 (1-4-0)
A laboratory class emphasizing independent research and design work by the student. The student will select a project in consultation with the instructor; perform the required research; compile data, formulate a theoretical model; and construct, test, and evaluate a working model of the selected project. Prerequisite: ELN 203.

ELN 1108 SWITCH AND DIGITAL CONTROL..... 6 (4-4-0)
This course will include an introduction to the use of semiconductor switching as a basic decision-making tool in the control of industrial machinery. Methods for combining simple switches to perform complex logical control functions will be explored.

ELN 1110 PROGRAMMABLE CONTROLS..... 6 (4-4-0)
This course will explore the rapidly developing technology of microprocessor-based programmable controllers and their use in automated industrial settings. Design and development of programs to perform specific control functions will be studied as well as special techniques for troubleshooting in systems under programmable control.

ELN 1119 INDUSTRIAL ELECTRONICS.....5 (3-4-0)
Basic industrial electronic systems such as motor controls, magnetic amplifier controls, welding control systems using thyratron tubes and other basic types of systems commonly found in most industries.
Prerequisite: ELN 1118 or permission of instructor.

ENGINEERING

EGR 1101 BASIC COMPUTERS FOR AUTOMOTIVE SERVICING..... 2 (1-0-3)
A study and hands-on familiarization of computers needed by the auto servicing community. Keyboarding and MS-DOS will be incorporated as it pertains to computer controlled test equipment and digital code readers. Shop inventory and reports will be kept on computer by students.

ENGLISH

ENG 090 ENGLISH SKILLS.....3 (1-4-0)
This course is an individual course for students who need to develop a foundation in grammar rules and usage. Institutional credit only.

ENG 098 DEVELOPMENTAL ENGLISH.....4 (3-2-0)
Designed for students who need a review of basic grammar skills before entering English 099. Institutional credit only.

ENG 099 COMPOSITIONAL SKILLS.....4 (3-2-0)
The course is designed to provide students with the essential techniques for writing in the traditional rhetorical modes required in college level English courses. It emphasizes paragraph and essay structures, strategies for developmental support, grammar, vocabulary, spelling, and sentence structure. Institution credit only.

ENG 106 TECHNICAL WRITING..... 4 (3-2-0)
A course in technical writing designed to introduce the students to compositions and reports found in the business world. Emphasis on group interaction

in completing a required assignment, the various format styles of written reports, and graphics. Prerequisite: ENG 155

ENG 155 COMPOSITION I.....5 (5-0-0)

A course in expository writing designed to improve students' skills in planning, composing, editing and proofreading. Emphasis on paragraph patterns, expository essays, and the research paper. Study of library skills, grammar.

ENG 156 COMPOSITION II.....5 (5-0-0)

A continuation of English 155. A study of poetry, drama, and short fiction. Literary essays using both primary sources and library research. Prerequisite: ENG 155

ENG 250 ORAL COMMUNICATION..... 3 (3-0-0)

English 250 allows students an opportunity to gain confidence and improve their oral communication skills by participating in a variety of public speaking situations. Topics include non-verbal communication, active listening, audience analysis, and effective visual aids. Particular attention will be given to speeches that inform and persuade.

ENG 262 BRITISH LITERATURE I.....5 (5-0-0)

English 262 introduces and surveys British literature written before 1800, and provides backgrounds in the culture and society of the Middle Ages, Renaissance, and the Age of Reason. Prerequisite: ENG 155 and ENG 156.

ENG 263 MASTERPIECES OF WORLD LITERATURE I.....(5-0-0)

English 263 introduces and surveys the origins of literature in Greek, Hebrew, Eastern, and Latin cultures, with comparative focus on mythical and religious textuality. Selections will be read in English translation.
Prerequisite: ENG 155 and ENG 156.

ENG 264 MASTERPIECES OF WORLD LITERATURE II..... (5-0-0)

English 264 introduces and surveys Medieval, Renaissance, and Modern European literature, with emphasis on the impact of social, religious, scientific, and philosophical change. Selections in translation. Prerequisite: ENG 155 and ENG 156.

ENG 266 MASTERPIECES OF MODERN FICTION.....5 (5-0-0)

English 266 introduces and surveys the development of the short novel from the late nineteenth century to the present.
Prerequisite: ENG 155 and ENG 156.

ENG 265 ENGLISH LITERATURE.....5 (5-0-0)

A survey of selected 19th and 20th century British authors with collateral readings from each period studied. Prerequisite: ENG 156.

ENG 274 CREATIVE WRITING.....5 (5-0-0)

English 274 introduces students to the fundamentals of writing poetry and fiction, assuming little or no previous creative writing experience: but demanding and underscoring the same grammatical, organizational, and critical proficiency taught in prerequisites ENG 155 and ENG 156.

ENG 275 AMERICAN LITERATURE I 5 (5-0-0)

Introduces and surveys American literature from its seventeenth century origins through the height of the American Romantic movement, and provides background in the cultural and political issues which have come to define American society. ENG 155 and ENG 156.

ENG 276 AMERICAN LITERATURE II..... 5 (5-0-0)
Introduces and surveys American literature from the beginning of the nineteenth century realism through modernism to contemporary-post-modern- literature, and provides background in the relevant cultural and political issues which define recent and contemporary American society. Prerequisites: English 155 and 156.

ENG 1103 COMMUNICATION SKILLS I..... 3 (3-0-0)
An entry-level course for vocational students designed to prepare the students to engage in effective oral communication, write acceptable business correspondence, and to read with understanding vocabulary in their field. Emphasis on writing paragraphs, business letters, identifying, interpreting, and applying business information. Prerequisites: Reading 094, English 098, or a passing score on the College's placement test.

ENG 1104 COMMUNICATION SKILLS II..... 3 (3-0-0)
A continuation of English 1103. In-depth work with job-search and job-seeking forms. A critical look at and practice with communication trends and principles in business communication. Prerequisite: successful completion of English 1103

FRENCH

FRE 151 ELEMENTARY FRENCH I..... 5 (5-0-0)
A beginning course for students who have never studied French. Much oral work, drill in grammatical principles, written composition, conversation, dictation, and pronunciation are stressed. French 151 and 152 are equivalent to two years of high school French. Senior colleges which require two years of a foreign language for admission normally accept these two courses for entrance credit or for six semester hours elective credit.

FRE 152 ELEMENTARY FRENCH II..... 5 (5-0-0)
A continuation of FRE 151. Prerequisite: One year of high school French or FRE 151.

FRE 251 INTERMEDIATE FRENCH I..... 5 (5-0-0)
A review of grammatical and linguistics principles covered through the 152-level course and a study of more advanced grammar and composition and of cultural and literary reading selections.

FRE 252 INTERMEDIATE FRENCH II..... 5 (5-0-0)
A continuation of FRE 251, with an emphasis placed on analyzing and translating literary genres of several important writers of the French speaking world.

GEOGRAPHY

GEO 261 PHYSICAL GEOGRAPHY..... 5 (5-0-0)
The earth's astronomical relations, factors of weather and climate, and physical features.

GEO 262 WORLD REGIONS AND ECONOMIC GEOGRAPHY 5(5-0-0)
Relations of human activities to the larger geographic regions of the world. Geographic factors involved in production, distribution, consumption, and conservation of the major crops, minerals and industries of the world.

HEALTH EDUCATION

HEA 251 FIRST AID AND SAFETY.....3 (3-0-0)

Principles and practices of basic first responder emergency care with certification in standard first aid and CPR.

HEA 252 PERSONAL HEALTH..... 3 (3-0-0)

The basic biologic and social concepts dealing with individual hygiene, disease, nutrition, mental health, heredity, and family hygiene.

HEA 253 COMMUNITY HEALTH..... 3 (3-0-0)

The basic principles and problems of contemporary community health and school hygiene are investigated. Topics include health education, recognition, evaluation and prevention of today's health problems, and trends in health.

HISTORY

HIS 151 HISTORY OF WESTERN CIVILIZATION I.....5 (5-0-0)

An eclectic approach to the history of Western Civilization from prehistoric times through the civilization of Egypt, Mesopotamia, Greece, Rome, and Medieval Europe to about 1650. The course is designed to prepare students for life in the world community by providing them a knowledge of those events of the past which have shaped the present and will influence the future.

HIS 152 HISTORY OF WESTERN CIVILIZATION II.....5 (5-0-0)

A continuation of History of Western Civilization 151 covering the period from 1650 to the present. The course is designed to afford the student an opportunity to examine the major historical forces which have shaped the political, intellectual, material, and cultural setting of the present.

HIS 161 NORTH CAROLINA HISTORY..... 5 (5-0-0)

A survey of the history of North Carolina from the Colonial Era to the present with emphasis on development since the Civil War.

HIS 251 U.S. HISTORY I.....5 (5-0-0)

The backgrounds of history, settlement, constitutional development, and union, along with manifest destiny and developing sectionalism. The course covers the period through 1865.

HIS 252 U.S. HISTORY II..... 5 (5-0-0)

Course covers Reconstruction, the progressive movement, World War I, and American history to the present. Students will become more aware of their nation as a part of the world community through this course.

HIS 261 NINETEENTH CENTURY EUROPE.....3 (3-0-0)

An in-depth survey of European history from 1815 to 1914. A cause and effect approach is used to trace the growth of nationalism and liberalism, the development of socialism, and the imperialism which brought turbulence throughout much of the century and eventually triggered World War I.

HIS 271 TWENTIETH CENTURY EUROPEAN HISTORY.....3 (3-0-0)

A consideration of the history of twentieth century Europe, beginning with the background of World War I, the political innovations between wars, World War II and its aftermath, and the significant political, social and cultural events which shaped the present. In addition to a factual examination, students will relate historical events with their own situation.

HIS 272 CIVIL WAR AND RECONSTRUCTION..... 3 (3-0-0)

A study of the American people during the crisis of the war and post-war

periods with emphasis on the causes of the war, the national and international impact, and the political, economic and social aspects of the Reconstruction.

HIS 273 TWENTIETH CENTURY U. S. HISTORY.....3 (3-0-0)
A history of the United States from 1932 to the present. Special emphasis is given to the changing political, economic and intellectual aspects of American democracy from the New Deal to the present.

INDUSTRIAL MANAGEMENT

ISC 133 INDUSTRIAL SAFETY 5 (5-0-0)
A responsibility of industrial managers is to provide a safe work environment for employees. Topics include OSHA and state regulations, protection of employees from injury, job and safety instruction, company rules and enforcement, the relationship of safety to insurance, as well as planning, implementing, and evaluating a good safety and fire prevention program.

ISC 210 INVENTORY MANAGEMENT.....3 (3-0-0)
Inventory management is a evolving discipline that encompasses the principles, concepts, and techniques for determining what items to order, in what quantity, when they are needed, when to order, and how and where to store them. This course is designed to prepare the student for APICS certification in Inventory Management.

ISC 212 MATERIAL AND CAPACITY PLANNING.....5 (5-0-0)
A study of the process of measuring the amount of work scheduled and determining the materials required as well as the human and physical resources necessary to accomplish it. The course is designed to prepare the student for APICS certification in Materials and Capacity Planning.

ISC 214 JUST-IN-TIME CONTINUOUS IMPROVEMENT.....3 (3-0-0)
A study of the Total Quality philosophy and Just-in-Time techniques that seek to improve the ability to economically respond to change. Production to demand with perfect quality, no unnecessary lead times, elimination of waste, development of the productive potential of people, and the quest for continuous improvement are the general concepts. Designed to prepare the student for APICS certification in Just-in-Time.

ISC 216 PRODUCTION PLANNING AND SCHEDULING 5 (5-0-0)
Designed to prepare the student for APICS certification in Master Planning. Four activities are central to the course: demand management, production planning, master production scheduling, and final assembly scheduling. Topics include forecasting, budgeting, aggregate output level, and order entry.

ISC 218 PRODUCTION AND OPERATIONS MANAGEMENT....5 (5-0-0)
Designed to prepare the student for APICS certification in Production Activity Control, this course encompasses the principles, approaches, and techniques needed to schedule, control, measure, and evaluate the effectiveness of production operations. The course views a broad base of production operations in a wide variety of production environments. Additional topics include organization and objectives, data requirements, short term capacity, production authorization, lead time, production measurement, and reporting.

ISC 220 PRODUCTION SYSTEMS AND TECHNOLOGY 3 (3-0-0)

Designed to prepare the student for APICS certification in Systems and Technology, the course includes planning and designing production systems and selection of appropriate technology. Included is an investigation into computerized production technology and appropriate systems to implement the technology.

ISC 230 QUALITY CONTROL..... 4 (3-2-0)

Principles and techniques of statistical process control are the focus of this course. Included are: organization and procedure for efficient quality control; the functions, responsibilities, structure, cost reports, records, personnel and vendor-customer relationships in quality control; inspections, process control and tests of significance.

INSTRUCTIONAL SUPPORT SERVICES

LLB 100C..... (Varied Hours; No Credit)

Special support for students who need individualized attention and increased concentration to support academic class work in General Education. Open to all students enrolled in the General Education curriculum, the lab operates on a multi-entry, multi-exit basis. A teacher referral for required attendance is necessary for student enrollment. Student tutors will be utilized, where applicable, to enhance instructional support.

LLB 100T..... (Varied Hours: No Credit)

Special support for students who need individualized attention and increased concentration to support academic class work in technical education. Open to all students enrolled in a technical curriculum, the lab operates on a multi-entry, multi-exit basis. A teacher referral for required attendance is necessary for student enrollment. Student tutors will be utilized, where applicable, to enhance instructional support.

LLB 100V..... (Varied Hours: No Credit)

Special support for students who need individualized attention and increased concentration to support academic class work in vocational education. Open to all students enrolled in a vocational curriculum, the lab operates on a multi-entry, multi-exit basis. A teacher referral for required attendance is necessary for student enrollment. Student tutors will be utilized, where applicable, to enhance instructional support.

MATHEMATICS

MAT 090 MATHEMATICS SKILLS 3 (1-4-0)

This course is an individualized course for students who need to develop a foundation in entry mathematical concepts. Institutional credit only.

MAT 096 DEVELOPMENTAL MATHEMATICS..... 4 (3-2-0)

Designed for students who need a review of the basics before taking MAT 151. Topics include expressing numbers, whole numbers, number theory, fractions, decimals, ratio and proportion, and percentages. Institutional credit only.

MAT 151 FUNDAMENTALS OF MATHEMATICS..... 5 (5-0-0)

This course is designed for students who need a review of basic mathematical skills before taking related courses in mathematics or other disciplines.

Topics include a study of the real number system with operations on the real number, linear equations and inequalities with applications, quadratic equations with applications, positive and negative exponents, roots and radicals, polynomials, factoring and rational expressions.

MAT 161 COLLEGE ALGEBRA..... 5 (5-0-0)

A modern approach to college algebra with emphasis on the logical structure of this discipline. Topics include numbers, sets, functions, graphs, equations, inequalities, matrices and determinants, the binomial theorem, and theory of equations.

MAT 162 TRIGONOMETRY..... 5 (5-0-0)

A study of trigonometry and its applications. Topics include a study of right and oblique triangle relationships, graphs of trigonometric functions, trigonometric identities and equations, inverse trigonometric functions, exponential and logarithmic functions, circular functions and complex numbers in trigonometric form. Calculator usage is emphasized throughout.

MAT 171 INTRODUCTORY STATISTICS..... 5 (5-0-0)

The course will include distributions, computation of averages and measures of dispersion, probability distributions, elements of sampling, correlation, prediction, tests of hypothesis. Offered on demand. Prerequisite: MAT 161 or permission of instructor.

MAT 191 CONCEPTS AND TECHNIQUES OF CALCULUS..... 5 (5-0-0)

A brief treatment of basic concepts of differential and integral calculus with applications to business, economics and the social and life sciences; polynomial, exponential and logarithmic functions. Prerequisite: MAT 161 or permission of instructor.

MAT 251 CALCULUS I 5 (5-0-0)

This beginning course in calculus offers a review of analytical geometry and is a study of the derivative, its inverse, theorems, and applications. Special attention is placed on the ideas of limits and continuity. This course is designed for mathematics, science, or engineering majors.

Prerequisite: MAT 161 or three years of high school mathematics.

MAT 252 CALCULUS II.....5 (5-0-0)

A continuation of MAT 251. Includes integration and its applications, conic sections, limits and continuity. Prerequisite: MAT 251.

MAT 253 CALCULUS III.....5 (5-0-0)

A continuation of MAT 252. The course includes exponential and logarithmic integration and differentiation, parametric equations, polar coordinates, methods of integration and further applications of the integral. Prerequisite: MAT 252.

MAT 1101 TRADE MATHEMATICS I..... 3 (3-0-0)

Practical number theory is the basis for this course. Analysis of basic operations; addition, subtraction, multiplication, and division are included. Other topics studied are fractions, decimals, and percentages. Some work with solid and plane geometric futures is undertaken as well; specifically, determinations of volume and surface areas. Extensive practice is required. The student is exposed to basic algebra.

MAT 1102 TRADE MATHEMATICS II.....3 (3-0-0)

A presentation of basic concepts and operations of algebra; algebraic operations; addition, subtraction, multiplication, division; and order of operations;

fractions, letter representation, grouping, ratio and proportion, graphical and algebraic solution of first degree equations; and exponents. Prerequisite: MAT 1101 or permission of instructor.

MAT 1104 BASIC MATHEMATICS..... 3 (3-0-0)
A study of basic concepts of mathematics including addition, subtraction, multiplication, and division of numbers. Fractions, decimals, and percentages also will be studied.

MACHINIST

MEC 101 MACHINE PROCESSES I..... 3 (2-0-3)
This is an introductory course designed to acquaint the student with basic hand tools, safety procedures, and machine processes in our modern industry. The course includes a study of measuring instruments, characteristics of metals, and cutting tools. The student will become familiar with the lathe family of the machine tools by performing selected operations such as turning, facing, threading, drilling, boring, and reaming. Prerequisite: None.

MEC 102 MACHINE PROCESSES II..... 3 (2-0-3)
This course covers advanced operations on lathe, drilling, boring and reaming machines. The types of milling machines, cutter, jog, fixture devices, the accessories used in a modern industrial plant, and safety in the shop are also studied. Prerequisite: MEC 101.

MEC 112 NUMERICAL CONTROL THEORY.....3 (2-2-0)
An introduction to numerical control. Demonstrations by the instructor of the various pieces of numerical control machinery and peripheral equipment in the machine shop, pointing out various controls and operating procedures including safety instructions. Students will program, set up, and operate the various shop numerical control equipment while working on projects.
Prerequisite: MEC 101, MAT 162.

MEC 113 NUMERICAL CONTROL PRACTICE..... 4 (2-4-0)
An advanced course in numerical controls. Students will program, set up, and operate the various pieces of numerical controls equipment in the machine shop while working on projects. Prerequisite: MEC 112.

MEC 114 HYDRAULIC AND PNEUMATIC FUNDAMENTALS....4 (3-0-3)
The basic theories of hydraulic and pneumatic systems. Combinations of systems in various circuits. Basic designs and functions of circuits and motors, controls, plumbing, filtration, pumps, valves, accumulators and reservoirs. Laboratory work to include field trips to local industries. Prerequisite: PHY 102.

MEC 123 COMPUTER AIDED MANUFACTURING..... 4 (2-0-6)
An introduction to the computer in the manufacture of computer numerically controlled (CNC) parts. Through the computer, the student will generate an image and tool path that will create a finished machine part by whatever machine operation called for in the tool path.
Prerequisite: DFT 120, DFT 121, DFT 122.

MEC 211 PHYSICAL METALLURGY..... 3 (2-0-3)
An introductory course in the uses of metals, alloys and plastics, together with the basic necessary theory for proper materials application. Basic metallurgical theory will be briefly presented. Basic plastics will also be covered. The available common steels and non-ferrous alloys will be discussed. Laboratory

work will include physical testing of metal specimens, reading of test results, and field trips to related local industries. Prerequisite: None.

MEC 1110 MACHINE PROCESSES I.....3 (2-0-3)
An introduction to basic machine operations in relation to manufacturing processes and drafting. Deals primarily with the identification, care and use of basic hand tools and precision-measuring instruments. Elementary layout procedures and processes of lathe, drill press, grinding (off-hand) and milling machines will be introduced both in theory and practice. Safety in the shop is stressed.

MEC 1111 MACHINE PROCESSES II..... 3 (2-0-3)
Advanced operations in layout tools and procedures, lathe, power saw, drill press, surface grinder, milling machine shaper. The student will complete selected projects encompassing all the operations, tools, and procedures thus far used and those to be stressed throughout the course. Prerequisite: MEC 1110 or permission of instructor.

MEC 1133 MECHANICAL MAINTENANCE..... 4 (2-0-6)
To acquaint the student with the basic fundamentals of installation, maintenance and repair of machines. Miscellaneous electrical, mechanical, hydraulic, pneumatic, and lubrication devices are installed and maintained. Methods of rigging and machine installation, including location, leveling and fastening are covered. The use of precision measuring tools and checking for accuracy, squareness, and correct center line distances are stressed for pre-start inspection. Prerequisite: MEC 1101, DFT 1104, DFT 1113.

MEC 1140 HYDRAULICS-FUNDAMENTALS.....3 (3-0-0)
This course is arranged to give the student a general knowledge of the basic components of hydraulic systems, as well as a general understanding of the basic laws and formulas used in simple hydraulic symbols, pumps, control valves, control assemblies, actuators, and basic maintenance procedures.

MEDICAL ASSISTING

MED 1110 ORIENTATION TO HEALTH CAREERS.....2 (2-0-0)
Upon completion of this course, students should be able to identify the important historical contributions to modern medicine; explore major allied health professions and the personal/professional requirements of each; and develop skills in psychological assessment of both self and patients.

MED 1111 MEDICAL TERMINOLOGY AND VOCABULARY I.....3 (3-0-0)
Upon completion of this course, students should be able to read and understand medical terms; build medical terms from Greek and Latin prefixes, suffixes, word roots and combining forms; spell medical terms correctly; use a medical dictionary; and use appropriate abbreviations and symbols.

MED 1112 MEDICAL TERMINOLOGY AND VOCABULARY II..... 3 (3-0-0)
Upon completion of this course students should be able to pronounce and spell correctly certain medical terms; define medical terms as they pertain to anatomy, physiology, and diseases, operations, tumors, drugs, and related descriptive terms; demonstrate ability to build medical words and analyze word components. The above objectives will apply to the following system: skin and breast musculoskeletal, cardiovascular, blood and blood forming organs, respiratory, systemic diseases and onocology. Prerequisite MED 1111

MED 1113 MEDICAL TERMINOLOGY AND VOCABULARY III.....3 (3-0-0)
A continuation of MED 1114 with objectives applying to the following systems: neurological and psychiatric, urogenital, gynecological and obstetrics, endocrine, sense, digestive. Prerequisite: MED 1112

MED 1114 MEDICAL ETHICS AND LAW.....3 (3-0-0)
Upon completion of this course, students should be able to describe the - laws that govern the practice of medicine; differentiate between the various medical practice arrangements and their legal implications; describe each medical service available to the public in the community and the way each contributes to comprehensive care; explain the meaning of the A.M.A. principles of Medical Ethics and discuss how each applies to the physician and the staff; list the Supreme Court decisions in which the Medical profession is directly involved.

MED 1115 MEDICAL LAB FUNDAMENTALS.....3 (2-2-0)
Upon completion of this course, students should be able to identify and explain medical aseptic practices; relate diagnostic and therapeutic procedures to basic body functions and correlate these procedures for assisting with a physical examination to normal body tissues; and use the correct medical terminology in order to communicate with the health care team.

MED 1116 INTRODUCTION TO MEDICAL TRANSCRIPTION.....4 (2-4-0)
In this course, students will be introduced to material that is routinely transcribed in a medical office. Upon completion of this course, they should be able to transcribe given medical material accurately.
Prerequisite: BUS 153, MED 1115

MED 1117 CLINICAL LAB I.....3 (2-2-0)
Upon completion of this course, students should be able to maintain a physician's office in regard to housekeeping and maintenance; carry out medical and surgical asepsis and list procedures and situations in which each is applied; demonstrate correct procedures for assisting the physician with physical examinations; describe the legal standards for drug administration and calculate dosages; demonstrate a working knowledge of basic nutrition.

MED 1118 CLINICAL LAB II.....5 (2-6-0)
Upon completion of this course, students should be able to identify all equipment and supplies and establish a method of inventory; select, assemble, and prepare sterile supplies and equipment needed to assist in surgical procedures using aseptic technique; take blood pressure using palpation and auscultation methods; demonstrate eye and ear irrigations and instillations; prepare and administer medications safely and accurately; demonstrate recording and mounting of electrocardiogram; demonstrate professionalism by dependability, responsibility, and initiative. Prerequisite: Completion of first two quarters; Corequisite: MED 1120

MED 1119 MEDICAL ECONOMICS.....4 (3-2-0)
Upon completion of this course, students should be able to keep a single entry set of books; maintain peg board; maintain a checking account; follow an efficient billing schedule; compose effective collection letters; apply rules for telephone requests for payment; handle special collection problems; explain medical fees, and assist patient in planning financing of medical care.

MED 1120 LABORATORY PROCEDURES.....6 (3-6-0)
Upon completion of this course, students should be able to cite the laboratory rules of safety; handle the equipment and reagents in a safe, responsible manner; identify the equipment, glassware, and supplies by sight and use; demonstrate the basic knowledge of the simple laboratory tests done in a physician's office by performing the test with accuracy, speed, personal integrity and complete honesty. Prerequisite: MED 1111 and 1115.

MED 1121 MEDICAL OFFICE ADMINISTRATION..... 5(0-0-5)
Upon completion of this course, students should be able to demonstrate skills in effective telephone technique; receive patients; arrange appointments; maintain accurate patient records; handle mail; manage all office records; file insurance claim forms; process written communications; make travel arrangements, perform editorial duties, and describe supervisory skills needed in a medical office. Prerequisite: MED 1111, BUS 153, EDP 158, ENG 155

MED 1122 MEDICAL OFFICE PRACTICE.....7 (0-0-21)
This course is a practice in Medical Assisting. Each student is assigned to a physician's office, clinic, or out-patient department. Upon completion of this course, students should be able to perform the duties of the medical assistant as they apply to the assigned office; demonstrate professional and communication skills necessary for the effective care of the patient; express an understanding of the practice of comprehensive health care in the community. Prerequisite: Completion of first 3 quarters; Corequisite: MED 1123

MED 1123 PROFESSIONAL RESPONSIBILITIES OF THE MEDICAL ASSISTANT.....1 (1-0-0)
Upon completion of this course, students will have begun to explore the personal and vocational responsibilities of a practitioner in the field of medical assisting. A discussion of the problems encountered during the practium and solutions which may be applied will be shared.

MED 1124 ADVANCED MEDICAL OFFICE PROCEDURES..... 3 (3-0-0)
Upon completion of this course, students should be able to assist the physician and explain the preparation of the patient who is to have such advanced diagnostic procedures as chemotherapy, radiation and nuclear medicine, demonstrate correct methods of administering medication, restraining methods, growth patterns and collection of specimens for the pediatric patient; and administer CPR. Corequisite: MED 1122.

MUSIC

MUS 250 MUSIC APPRECIATION..... 5 (5-0-0)
A non-technical course for students with little or no musical background. Emphasis is placed on the style and form of music as perceived by the listener.

NURSING

NUR 101 FUNDAMENTALS OF NURSING.....7 (4-0-9)
This course acquaints the student with basic nursing theory and skills with an overall emphasis on meeting adult patient basic needs. The student is introduced to each component of the conceptual framework and philosophy of the Mitchell Community College nursing program. Skills embodied in the NLN ADN Roles and Competencies (Appendix A-1) are introduced as threads throughout the curriculum. Provisions are made for the application of nursing

theory in an on campus laboratory and in the hospital setting. The student is expected to develop and demonstrate a beginning confidence in the performance of skills and patient care utilizing appropriate techniques.

NUR 102 PHARMACOLOGY IN NURSING.....2 (1-0-3)

This course acquaints the student with basic pharmacology theory and necessary skills needed to calculate and administer medications to clients. Medication administration is emphasized as a major part of the role of provider of care.

NUR 110 HEALTH ASSESSMENT IN NURSING..... 2 (1-0- 3)

This course introduces the student to a complete full-body assessment of health. Assessment of all body systems is emphasized as a major component of the nursing process while the student is functioning in the role of provider of care.

NUR 111 MEDICAL-SURGICAL NURSING I.....9 (5-0-12)

This course emphasizes the role of provider of care for the ADN utilizing the nursing process in helping patients meet their basic human needs and cope with the stresses of movement along with the health-illness continuum. Surgery, oxygenation, and fluid/electrolyte imbalances, onocology, geriatric and biophysical and psychosocial concepts are presented as common health problems. Clinical experience is integrated with theory and laboratory experiences to give the student the opportunity to achieve increased performance of the skills embodied in the NLN ADN Roles and Competencies position paper. The use of the nursing process highlighting physical assessment skills is stressed in the clinical area. In addition, basic computer skills are presented as these apply to the health care setting. Clinical activities are designed to reinforce classroom and laboratory learning.

NUR 112 MEDICAL-SURGICAL NURSING II.....10 (6-0-12)

Emphasis is placed on expanding the students ability to use the nursing process and the skills embodied in the NLN ADN Roles and Competencies as these apply to the basic needs of patients experiencing dysfunction in the musculoskeletal, gastrointestinal, endocrine, and reproductive systems. In addition, this approach is utilized in presenting material on patients/clients experiencing movement along the health-illness continuum due to skin, immunological, allergic or infectious disorders.

NUR 113 MEDICAL-SURGICAL NURSING III.....10 (6-0-12)

Nursing 113 focuses on the pathophysiology, prognosis, treatment, and application of the nursing process to the care of patients with disorders of the following systems: cardiovascular, respiratory, renal, sensory, and neurological. The unit also includes pathophysiology, prognosis, treatment, and application of the nursing process for the patient with burns, other common emergencies and multiple trauma. Basic concepts of critical care nursing will be included. Clinical experience is integrated with theory to give students the opportunity to achieve increased skills in the performance of selected nursing procedures. Within the clinical setting, the student will expand their role of provider of care to meeting the needs of patients with complex health concerns. The student will also be given opportunities to enhance knowledge and comprehension of their role as a member of the health care team. A rotation of ICU, CCU, ER and dialysis is included in the clinical experience.

Other clinical experiences may be included as available; these may include cardiac cath lab, neuro speciality unit and surgical observation.

NUR 151 BASIC NUTRITION 2 (1-0-3)

This course presents a practical study of nutrients, how they are used by the body, and their sources, taking into consideration developmental and ethnic variations. Common hospital diets used in diet therapy are introduced.

NUR 212 PEDIATRIC NURSING.....10 (6-0-12)

NUR 212 is an in-depth study of the care of children from infancy through adolescence. The course is structured around the role of the nurse as provider of care, utilizing the nursing process, organizing nursing care according to basic human needs, and focusing on the common health concerns of the normal growing child. During the course emphasis is placed on normal growth and development; nurse-patient-parent relationships, short and long term illnesses from infancy through adolescence, and preventative, curative, and rehabilitative aspects of nursing of children. Throughout the course the nurse's role in promoting the physical and emotional well-being of the childrearing family is stressed.

NUR 213 OBSTETRICAL NURSING.....10 (6-0-12)

NUR 213 is an in-depth study of the care of the childbearing family from preconception through the neonatal period. The course is structured around the role of the nurse as provider of care, utilizing the nursing process, prioritizing according to basic human needs, and focusing on common health concerns of the childbearing family. The normal physiological process of childbearing (wellness) and deviations from the normal (illness) provide the framework of study. There is an emphasis, throughout the course, on preventative measures and the nurse's role as teacher, in promoting the physical and emotional well-being of the childbearing family.

NUR 214 PSYCHIATRIC NURSING 7 (4-0-9)

NUR 214 is an in-depth study of mental health care in the community and in inpatient psychiatric facilities. The course is structured around the role of the nurse, utilizing the nursing process, prioritizing according to basic human needs, and focusing on common mental health concerns. Normal responses to stress and deviations from the normal response are described, along the healthiness continuum. There is an emphasis, throughout the course, on the nurse's therapeutic role as provider of care, preventative role as manager of care through early referral, and role as member within the profession, through addressing issues and trends impacting the mental health of clients in any health setting.

NUR 215 NURSING LEADERSHIP AND TRENDS .....6 (3 -0-9)

This course emphasizes all the roles of the Associate Degree nurse. Current trends, transitional concerns and the need for continuing education are emphasized. Ethics, accountability, and legal aspects of practice are discussed. Transition to the role of the graduate is stressed.

NUR 1110 NURSING ASSISTANT.....5(2-2-6)

Upon completion of this course students should be able to describe the organization of a health-care facility and the role of a nursing assistant on the health-care team; explain patient's rights and methods to safeguard those rights; identify the mental, social, and physical needs of the elderly; describe and demonstrate principles of universal infection control and maintaining a clean, safe , patient environment; describe and demonstrate principles of movement and restorative services; identify human body structure and function and related common diseases/disorders; understand, assist with, and report nutrition management and the patient's elimination of body waste; provide and report the nursing-related procedures of daily personal care; observe measure and report vital signs, chart and report patient care and observations utilizing medical terminology; and provide care to dying patients and postmortem care.

NUR 1111 NURSING ASSISTANT II.....8(3-4-9)

Upon completion of this course, students should be able to perform more complex skills for patients in a variety of settings; describe the roles and responsibilities of the Nurse Assistant II; understand and demonstrate principles of sterile technique and procedures to maintain surgical asepsis; understand and demonstrate competency in catheterization, irrigation, ostomy care procedures; break/remove fecal impactions; and care of drainage tubes; understand fluid management and IV care; provide care for a patient requiring suctions, hypothermia, oxygen therapy, and tube feedings; and observe, report, and document the provision of these special procedures.

Prerequisite: NUR 1110

NUR 1112 HOME CARE.....4(3-2-0)

Upon completion of this course, students should be able to understand growth and development throughout the life cycle; understand principles of good nutrition; understand principles and demonstrate competency in meal preparation, medication management, pediatric home care, safety measures and accident prevention, and management of emergencies in the home; how to access and utilize community resources; and understand principles of family dynamics and home management. Prerequisite: NUR 1110

PHYSICAL EDUCATION

Each physical activity course may be taken and counted twice for graduation. The physical education program of activity courses has been designed to give the students knowledge of a program to carry with them when they leave school and to aid in their physical conditioning while in school. For these reasons, credit by examination may not be given for activity courses.

The College does not provide transportation to any off-campus Physical Education activity.

PED 150 ARCHERY.....1 (0-2-0)

A course designed to teach the student the fundamental skills of the target bow and arrow.

PED 151 BADMINTON.....1 (0-2-0)

A course designed to teach the student the rules, regulations and fundamental skills of badminton.

PED 153 BASKETBALL.....1 (0-2-0)
A course designed to teach the students basic basketball technique with emphasis placed on rules, regulations and fundamental skills.

PED 154 BOWLING..... 1 (0-2-0)
A course designed to teach the students the fundamental skills of bowling.

PED 155 PHYSICAL FITNESS..... 1 (0-2-0)
A course designed to teach the student principles of developing and maintaining the components of physical fitness with emphasis on cardiovascular fitness and muscle tone. Students begin with their present level of fitness and progress according to their personal needs.

PED 156 FENCING 1 (0-2-0)
A course designed to teach the student the rules, regulations, and fundamental skills of fencing.

PED 157 GOLF .....1(0-2-0)
A course designed to teach the student the rules, regulations, etiquette and fundamental skills of beginning golf.

PED 160 TENNIS 1 (0-2-0)
A course designed to teach basic fundamental tennis, with emphasis placed on skills, rules and regulations.

PED 161 VOLLEYBALL 1 (0-2-0)
A course designed to teach the basic skills of volleyball with emphasis placed on team play, rules and regulations.

PED 162 WEIGHT TRAINING..... 1 (0-2-0)
A course designed to teach fundamental skills related to weight training with an emphasis placed on body conditioning and control.

PED 164 VARSITY BASKETBALL.....1 (0-5-0)

PED 165 VARSITY GOLF..... 1 (0-5-0)

PED 166 VARSITY TENNIS..... 1 (0-5-0)
PED 164, 165, and 166 are courses designed for skilled students to participate against each other to improve skills and understandings of advanced techniques, rules and regulations. Students in these classes may be permitted to participate in inter-collegiate student activities.

PED 169 GYMNASTICS..... 1 (0-2-0)
A course designed to teach basic tumbling, floor exercise, conditioning, safety, and trampoline maneuvers.

PED 170 SKIING 1 (0-3-0)
A course designed to give information concerning safety in skiing, equipment, clothing, and techniques of skiing used on the slopes.

PED 171 INTERMEDIATE GOLF.....1 (0-2-0)
A course designed to teach intermediate golf skills to the student. Emphasis is based on the non-beginner skills.

PED 172 BEGINNING KARATE.....1 (0-2-0)
A course designed to teach basic self-defense. Included are blocks, counter punches, and proper kicking techniques. Also stressed are mental and physical conditioning related to the martial art of Tae Kwan Do Karate.

PED 175 INTERMEDIATE TENNIS.....1 (0-2-0)
A course designed to teach strategy and execution of successful skills used in a tennis match. Emphasis is placed on execution at forehand, backhand, serve, volley, and doubles play and strategy.

PED 178 COMPETITIVE BASKETBALL.....1 (0-2-0)
A course designed to teach all aspects of the competitiveness of basketball. Emphasis is placed on team play and the intramural aspects of the game of basketball.

PED 179 SWIMMING.....1 (0-2-0)
A course designed to teach and improve basic swimming strokes, water safety, diving, and to promote general fitness.

PED 182 INTRODUCTION TO LIFETIME SPORTS..... 1 (0-2-0)
A course designed to teach activities which are available to all individuals in their lifetime. A brief introduction to the following leisure time sports: bowling, golf, tennis, billiards, archery, badminton, and physical fitness.

PED 183 JOGGING 1 (0-2-0)
A course designed to teach proper methods and techniques for devising a jogging program. Emphasis placed on basic fundamentals for fitness and health.

PED 190 AEROBIC DANCE..... 1 (0-2-0)
A course designed to teach the student basic concepts and patterns of aerobic dance to ensure fitness and muscle tone through continuous, rhythmic exercise.

PED 191 WATER SKIING..... 1 (2-0-0)
A course designed to teach the fundamental skills of skiing on water. Included are safety, equipment, equipment care, fundamentals and slalom.

PED 192 LIFESAVING 2 (0-0-4)
A course designed to teach the proper methods of lifesaving water rescues, basic first aid, CPR, lifeguarding, and individual survival in the water. YMCA and Red Cross certifications upon successful completion. Prerequisites: Advanced swimming skills. Strokes include freestyle, breastroke, sidestroke, elementary backstroke. Skills include treading water, surface dives and underwater swimming.

PED 193 RACQUETBALL..... 1 (0-2-0)
A course designed to teach the student the rules, regulations, and fundamental skills of racquetball.

PED 194 INTERMEDIATE RACQUETBALL..... 1 (0-2-0)
A course designed to introduce additional, more advanced offensive and defensive shots to the beginning racquetball player. Additional serves are taught, and emphasis placed on shot placement and strategy.

PED 195 COMPETITIVE VOLLEYBALL..... 1 (0-2-0)
A course designed for students to concentrate on strategy and execution of power volleyball skills. The course is intended to provide the student with practice in a competitive skill level of play. Emphasis is on team play and interclass competition.

PED 196 WELLNESS AND FITNESS CONCEPTS.....1 (0-2-0)
A course designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. This course provides the individual with a fitness profile, and the ability to make intelligent decisions relevant to the development, maintenance, and evaluation of physical fitness and health-related areas.

PHYSICS

PHY 101 PROPERTIES OF MATTER.....4 (3-2-0)
A fundamental course covering basic principles of physics including solids and their characteristics, liquids at rest and in motion, gas laws and applications. Laboratory experiments and specialized problems dealing with these topics are a part of the course.

PHY 102 MECHANICS 4 (3-2-0)
Major areas covered in this course are force, motion, work, energy, and power. Instruction includes such topics as vectors and graphic solutions, basic machines, friction and torque. Prerequisites: PHY 101, MAT 161.

PHY 103 ELECTRICITY 4 (3-2-0)
Basic theories of AC and DC including the electron theory and production of electricity by chemical action, friction, magnetism and induction. Industrial application involving the use of voltage, amperage, resistance, horsepower and wattage are major parts of the course. Prerequisites: PHY 101, MAT 162.

PHY 271 GENERAL PHYSICS I.....4 (3-3-0)
This is the first quarter of a three quarter sequence of study in the basic principles of physics. This quarter covers the fundamental concepts of the nature of physics and classical mechanics. The basic topics included are measurement, general properties of matter, vector analysis, kinematics, dynamics, statics, and the conservation of momentum and energy.

PHY 272 GENERAL PHYSICS II..... 4 (3-3-0)
This is the second quarter of General Physics. This quarter covers the fundamental concepts of non-linear motion, heat energy, and electricity. The basic topics included are rotation, vibration, wave motion, fluids, thermal expansion, heat transfer, thermodynamics, electrostatics and current electricity. Prerequisite: PHY 271.

PHY 273 GENERAL PHYSICS III.....4 (3-3-0)
This is the final quarter of General Physics. This quarter covers the fundamental concepts of electromagnetism, light, and modern physics. The basic topics included are magnetism, electromagnetic induction, geometrical and physical optics, atomic and nuclear physics, relativity and quantum mechanics. Prerequisite: PHY 272.

PHY 1101 APPLIED SCIENCE I.....3 (2-2-0)
This course is an introduction to physical principles and their applications in industry. It includes topics such as measurement; properties of solids, liquids, and gasses; heat; and thermal energy.

PHY 1102 APPLIED SCIENCE II.....3 (2-2-0)
This course is a continuation of PHY 1101. It includes topics such as static and current electricity, magnetism, electromagnetism, motion, force, energy, and power. Prerequisite: PHY 1101 or permission of instructor.

POLITICAL SCIENCE

POL 251 AMERICAN NATIONAL GOVERNMENT.....5 (5-0-0)
A survey course covering the organization and role of the executive, legislative and judicial branches of the Federal Government, emphasizing such areas as business, national security, civil rights, the relationship between the American people and their political institutions, the electoral process, interest groups, and the international commitments of the United States.

POL 261 STATE AND LOCAL GOVERNMENT..... 5 (5-0-0)
A study of the organization, functions and powers of state, county, and local governments in the United States, with emphasis on the state of North Carolina.

POL 271 INTERNATIONAL RELATIONS..... 3 (3-0-0)
A study of basic forces underlying the conduct of international relations and the formation of foreign policy, with emphasis on the role of the United States in its relations with major or areas of the world today.

POL 272 COMPARATIVE GOVERNMENT..... 3 (3-0-0)
An intensive study of the political structure of various nations, including some nations from Asia, Europe, Africa, Latin America, as well as the United States.

POL 275 THE AMERICAN PRESIDENCY..... 3 (3-0-0)
A survey of the American presidency from George Washington to the incumbent through an examination of the creation of the office, its powers and duties, its successes and failures, and its holders, both famous and infamous. Issues of the current campaign will also form a part of the discussion. Offered only during presidential election year.

PSYCHOLOGY

PSY 150 CAREER AND LIFE PLANNING..... 3 (3-0-0)
This course is designed to broaden students' understanding of themselves, their potential, and related factors which contribute to personal satisfaction. Emphasis is placed on clarifying current ,values, interests, and personality styles so that these factors may be carefully considered in learning to set personal goals, develop career decision-making skills, and acquire techniques for self-management.

PSY 151 INTRODUCTION TO PSYCHOLOGY..... 5 (5-0-0)
A study of general psychology as a behavioral science. The course introduces the students to such areas as the history and systems of psychology, sensation, perceptions, learning, emotions, motivation, conditioning, personality, abnormal behavior, development (physical and mental), and social interaction with other people and society. The course will stress the development of a sensitivity toward an awareness of the complexity of human behavior, as well as the development of the basic vocabulary of psychology.

PSY 201 APPLIED PSYCHOLOGY..... 3 (3-0-0)
An examination of the problems in human relationships with special attention given to the development of those human relation skills necessary for effective interactions. Topics covered include: adjustment, attitude, communication, habits, listening, frustration, motivation, and the job-finding process.

PSY 203 ADOLESCENT PSYCHOLOGY..... 3 (3-0-0)
A course designed to present basic information about the adolescent period of human development. Physiological, developmental, and psychological characteristics are examined, with special focus on the identification and understanding of problems faced by adolescents in western culture. Prerequisite: PSY 151 or permission of instructor.

PSY 261 EDUCATIONAL PSYCHOLOGY..... 5 (5-0-0)
The study of the principles involved in learning and teaching. Major concepts and theories in knowledge acquisition will be covered with emphasis on their

educational application. Topics included are: age level behavior characteristics, educational theories and their application to learning, motivation, individual differences, assessment, classroom control, and student/teacher relationships. Prerequisite: PSY 151 or permission of instructor.

PSY 262 HUMAN GROWTH AND DEVELOPMENT..... 5 (5-0-0)
An integrated study of the human life span structured to introduce basic concepts and principles of the stages of physiological and psychological development from conception to senescence. Emphasis is on personality development. Consideration is given to the common chronological processes of development and the sociological, biological, and cultural influences experienced throughout the life span. Prerequisite: PSY 151 or permission of instructor.

PSY 264 ABNORMAL PSYHCOLOGY..... 5 (5-0-0)
A course designed to introduce the learner to theories relating to abnormality. Topics covered include: definitions and history, three perspectives on abnormal behavior, psychosis, suicide and depression, criminal behavior, psychosomatic disorders, brain disorders, mental retardation, and high risk groups. Prerequisite: PSY 151.

PSY 265 PSYCHOLOGY OF PERSONAL ADJUSTMENT..... 5 (5-0-0)
The study of the adjustment process, focusing on contemporary challenges individuals must face and deal with as well as effective coping with the adjustment demands of everyday life. Topics covered include: theories of personality and behavior, self-concept and self-esteem, stress and anxiety, human relationships and sexuality, social and environmental factors influencing personal adjustments, and directions for healthy personality functions.

PSY 1101 HUMAN RELATIONS..... 3 (3-0-0)
A study of the principles of psychology that will be of assistance in the understanding of interpersonal relations on the job. Motivation, feelings, and emotions are considered with particular reference to on-the job problems. Other topics investigated are employee selection, supervision, job satisfaction, and industrial conflicts. Attention is also given to personal and group dynamics so that the student may learn to apply the principles of mental hygiene to adjustment problems as a worker and a member of the general community.

READING

RDG 090 READING SKILLS..... 3 (1-4-0)
This course is an individual course for students who need to develop a foundation in word attack skills and word usage. Institutional credit only.

RDG 092 DEVELOPMENTAL READING I..... 4 (3-2-0)
Designed for the student who needs instruction in word recognition and/or basic comprehension skills before entering Reading 094. Instruction will be individualized. Institutional credit only.

RDG 094 DEVELOPMENTAL READING II..... 4 (3-2-0)
Designed for the student who needs reading instruction, this course will emphasize development of effective study skills and improvement of reading rate, comprehension, and vocabulary. Institutional credit only.

RELIGION

REL 150 INTRODUCTION TO THE OLD TESTAMENT I.....3 (3-0-0)
The purpose of this course is to introduce the student to the major themes of the Old Testament which form the central motifs of the Bible. Therefore, the study will cover such themes as God's grace, man's sin, election, and covenant. The course is designed to give the student a survey of Biblical material from Genesis through II Samuel in order to offer a comprehensive view of the principle ideas developed in these first books of the Old Testament.

REL 151 INTRODUCTION TO THE OLD TESTAMENT II.....3 (3-0-0)
The particular focus of this course will be a study of the prophets of the 7th and 8th century, B.C. As time permits, the course will touch on the Wisdom Literature such as job, Psalms, Proverbs, etc. The course will seek to demonstrate that out of the matrix of history, Israel moves toward ethical monotheism which forms the basis of the New Testament. Themes of covenant, judgment, and grace will be further developed as the student understands the prophetic message emerging out of Israel's traumatic history.

REL 152 INTRODUCTION TO THE NEW TESTAMENT I..... 3 (3-0-0)
The purpose of this study is to introduce the student to the Gospel accounts and the Book of Acts. The course will discuss how the Gospels came into being, the Gospel understanding of the nature and person of Christ, the miracle stories, the question of evil in the New Testament, and the Atonement, as understood by the writers of the Gospels. The study of the Book of Acts will deal with the response of the early Christian church to the Christ event and the transformation of the early church from a small group into a major religious body that would convey a faith that would move the world from B.C. to A.D.

REL 153 INTRODUCTION TO THE NEW TESTAMENT II..... 3 (3-0-0)
The course will deal with Paul's understanding of issues such as justification by grace alone through faith, Christian freedom, the nature of Christ, and the parameters of the Christian life. As time permits, the course will examine the perception of God and the marks of the Christian life in the Johanine literature as well as the symbolism of the Book of Revelation, whose principle purpose was to give the infant Christian community hope in the midst of great trials and tribulations.

REL 154 THE RELIGIONS OF MAN..... 3 (3-0-0)
This course surveys the religions of man, beginning with the early primitive religion of prehistoric man, and ending with contemporary developments in Eastern and Western Religion. Special emphasis is given to Hinduism, Buddhism, Zen, Taoism, Confucianism, Judaism, Christianity, and Islam. The purpose of this course is to enable the student to appreciate the faith of other men, and to become aware of major spiritual forces in the world today.

REL 155 INTRODUCTION TO ETHICAL DECISION MAKING.... 3 (3-0-0)
This course will have two major parts to it. Approximately one-third of the course will be devoted to a quick survey of various philosophical approaches to ethical decision making and a review of Christian thought. The remaining two-thirds of the quarter will be devoted to a study of contemporary ethical issues. The purpose of the course is to enable the student to see and understand the dimensions of ethical discourse in the context of society and religion and thereby make rational ethical decisions.

SOCIOLOGY

SOC 151 INTRODUCTION TO SOCIOLOGY..... 5 (5-0-0)

This course begins with the definition and classification of things which pertain to human interaction. Definition of words and concerns with sociological concepts make it a typical introductory course. The scope of the course is wide enough so that most sociological problems are briefly mentioned.

SOC 261 COURTSHIP, MARRIAGE, AND THE FAMILY 5 (5-0-0)

This course deals with the nature of self which is preparatory for a discussion of courtship. The emotional and down-to-earth problems of marriage are examined in considerable detail. Such problems as marital adjustment, divorces, re-marriages, careers and marriage, and in-laws are considered. The developing family is traced, and the necessity for maturity before marriage is considered. Prerequisite: SOC 151 or permission of the instructor.

SOC 271 SOCIAL PROBLEMS..... 3 (3-0-0)

This course introduces the sociological approach to viewing social problems, and surveys possible causes and solutions to the following problem areas; physical and mental health, variations in human sexuality, chemical dependency, crime and criminals, violence, affluence and poverty, and prejudice and discrimination. Prerequisite: SOC 151 is recommended.

SOC 272 SOCIAL PROBLEMS..... 3 (3-0-0)

This course reviews the sociological approach to social problems, and surveys possible causes and solutions to problems related to the following topics: sex roles, aging, family stress, big business, employment, urban living, population growth, and the environment. Prerequisite: SOC 151 is recommended.

SPANISH

SPA 151 ELEMENTARY SPANISH I..... 5 (5-0-0)

A beginning course for students who have never studied Spanish. Much oral work, drill in grammatical principles, written composition, conversation, dictation, and pronunciation are stressed. SPA 151 and 152 are equivalent to two years of high school Spanish. Senior colleges which required two years of foreign language for admission normally accept these two courses for entrance credit or for six semester hours elective credit.

SPA 152 ELEMENTARY SPANISH II..... 5 (5-0-0)

A continuation of SPA 151. Prerequisite: One year of high school Spanish or SPA 151.

SPA 251 INTERMEDIATE SPANISH I..... 5 (5-0-0)

A review of grammatical and linguistic principles covered through the 152-level course and a study of more advanced grammar and composition and of cultural and literary reading selections.

SPA 252 INTERMEDIATE SPANISH 11..... 5 (5-0-0)

A continuation of Spanish 251, with an emphasis placed on analyzing and translating literary genres of several important writers of the Spanish-speaking world.

WELDING

WLD 1101 BASIC OXYACETYLENE WELDING..... 2 (1-0-3)

Welding demonstrations by the instructor and practice by students in the welding shop. Safe and correct methods of assembling, adjusting, and operating the welding equipment. Practice will be given in surface welding, bronze

welding, fillet welding, and flame-cutting methods applicable to mechanical repair work.

WLD 1110 OXYACETYLENE WELDING.....4 (2-0-6)

Introduction to the history of oxyacetylene welding; the principles of welding, nomenclature of equipment, and assembly of the unit. Welding procedures, and practice will consist of carrying a puddle; making surface, seam, groove, and fillet welds in the flat horizontal, vertical, and overhead positions. Brazing and bronze welding are also covered. Safety is stressed throughout the course.

WLD 1111 OXYACETYLENE CUTTING..... 2 (1-0-3)

This course will include a study of operation principles, component function and care, and proper set-up and adjustment of the oxyacetylene flame cutting equipment. Practices are directed toward the student acquiring skills in such procedures as straight line and shape cutting, beveling, hole piercing, and pipe cutting. Throughout the course safety will be emphasized.

WLD 1112 ARC WELDING FUNDAMENTALS..... 4 (2-0-6)

Upon completion of this course, students should be able to understand the basic electrical principles of arc welding; have a working knowledge of the electrode classification system and make proper electrode selections; operate an AC transformer, rectifier, and DC motor generator arc welding machine; weld different types of joints in the flat position; observe all shop safety precautions related to electric arc welding.

WLD 1113 ARC WELDING TECHNIQUES..... 4 (2-0-6)

Upon completion of this course, students should be able to weld various joints in all positions; make intermittent and multi pass welds; visually inspect and test welds to determine degrees of proficiency; observe all shop safety precautions related to electric arc welding. May Prerequisite: WLD 1112 or may be taken concurrently with WLD 1112 (or permission of instructor).

WLD 1114 GAS METAL ARC WELDING..... 4 (2-0-6)

A course designed to provide the student with an understanding of the gas metal arc welding process. Topics will include principles of operation, machine set-up and adjustment, selection of consumables, and welding techniques. Practice will include seam, fillet, and groove welds in the four basic welding positions.

WLD 1116 FUNDAMENTALS OF GAS TUNGSTEN ARC WELDING..... 4 (2-0-6)

Upon completion of this course, students should be able to understand the electrical, physical, and chemical principles of TIG welding; demonstrate a working knowledge of equipment operation; weld different types of joints in the flat position; observe all shop safety precautions related to TIG welding.

WLD 1117 TECHNIQUES OF GAS TUNGSTEN ARC WELDING.....4 (2-0-6)

Upon completion of this course, students should be able to specify welding heat ranges; select tungsten electrodes and ceramic cups in proportionate sizes; determine size and alloy of filler metals; observe all shop safety precautions related to TIG welding. Prerequisite: WLD 1116 or may be taken concurrently with WLD 1116; or permission of instructor.

WLD 1118 INTRODUCTION OF PIPE WELDING.....2 (1-0-3)
A course designed to provide practice in the welding of pressure piping in the horizontal, vertical, and horizontal fixed positions using the shielded metal arc welding process according to Section IX of the ASME code. Prerequisite: WLD 1113.

WLD 1122 COMMERCIAL AND INDUSTRIAL PROCEDURES..... 4 (2-0-6)
Upon completion of this course, students should be able to demonstrate skills developed through simulated industrial processes; sketch, requisition material, lay out, fabricate, and weld on assigned project; repair worn and/or broken parts employing the available welding processes; continue to stress safety precautions employed in the welding industry. Prerequisites: WLD 1111, WLD 1113, WLD 1114, WLD 1117, and WLD 1118, or permission of instructor.

WLD 1123 COMMERCIAL AND INDUSTRIAL PRACTICES.....4 (2-0-6)
Upon completion of this course, students should be able to become more proficient in industrial fabrication processes; make a metallurgical analysis of worn and/or broken parts to be repaired; select the best welding process and procedure to repair worn and/or broken parts; utilize safety precautions related to the welding fabrication industry. Prerequisite: WLD 1122. May be taken concurrently with WLD 1122.

WLD 1125 STRUCTURAL CERTIFICATION PRACTICE..... 2 (1-0-3)
Upon completion of this course, students should he able to: become familiar with AWS D1.1 Structural Code and its requirements; comply with established certification standards; weld various structural joints in numerous positions using electric ARC and gas metal ARC welding processes; execute safety precautions while using welding equipment and other shop tools. Prerequisite: WLD 1111, WLD 1113, WLD 1114, or permission of instructor.

WLD 1126 PIPE CERTIFICATION PRACTICE.....2 (1-0-3)
Upon completion of this course, students should be able to: become familiar with the ASME Code for pipe and pressure vessels; comply with established certification standards; make pipe welds in diverse positions required for particular certifications; demonstrate safety precautions pertaining to welding and fabrication equipment. Prerequisites: WLD 1111, WLD 1113, WLD 1114, WLD 1117, and WLD 1118, or permission of instructor.

WLD 1130 MECHANICAL TESTING AND INSPECTION..... 2 (1-0-3)
The standard methods for mechanical testing of welds. Introduction to the various types of tests and testing procedures. Types of tests to be covered are: bend, destructive, free-bend, guided-bend, nick-tear, notched bend, tee-bend, non-destructive, V-notch, Charpy impact. Prerequisite: WLD 1112, 1113, 1114, 1116, 1117, 1118, or permission of instructor.

Mitchell Community College, Statesville, North Carolina
4,000 copies of this public document were printed at a total cost of 1.39 each.
An Affirmative Action/Equal Opportunity Employer
